THE GOALS OF THE HAMILTON HIGH ALUMNI ASSOCIATION

Are to fund scholarship support for Hamilton graduates seeking higher education, to fund enhanced educational and community opportunities for current Hamilton students, and to reconnect our Hamilton alumni.

President's Message

Hello to the Hamilton High community! It is an honor and a privilege to have been selected as president of HAA. I am excited about the upcoming year and all that we will accomplish.

I am happy to provide an update regarding the completion of the first phase of the 400-million-dollar Hamilton Modernization Project: specifically, a new track, field, and bleachers; stadium lights; concession stands; restrooms; and an actual press box. All phases of the five-year Los Angeles Unified School District project are planned to culminate just prior to the 100th anniversary of Hamilton in 2031.

The original Hamilton main building was designed by renowned architect John C. Austin. It opened in 1931, with an enrollment of 798 students; today, there are over 2025 enrolled. Mr. Austin also designed other famous Los Angeles landmarks, such as the L.A. City Hall, Griffith Observatory, Shrine Auditorium, Hollywood Masonic Temple, and the Los Angeles City Memorial Public Library, which is located across the street from Los Angeles High School.

I am also pleased to announce that the Fall 2025 football season is rather unique, because the varsity team will be playing all home games at night, under newly constructed lights for the first time ever in the history of the school! I invite you to attend a game and see what your tax dollars are doing on our campus. When you are on campus, I encourage you to meet Principal Jennifer Baxter; you will be thoroughly impressed.

Thank you, and "Fight On for Hamilton."

Respectfully,

Tom

Thomas C. McLurkin Jr. '72,
President of HAA 🏆

THE PASSING OF THE BATON

By Bruce Galanter

FOR MANY OF US, STEPHEN ANGEL WAS THE HAMILTON HIGH SCHOOL ALUMNI ASSOCIATION.

AFTER HAMILTON, Steve went to UCLA and then to UCSF for medical school. He did his residency in Internal Medicine

and then, after two and a half years at Kaiser Permanente Bellflower, went into private practice in Newport Beach at Hoag Hospital. When he retired in 2013, he got a call from Marv Sugarman to join the HAA Board of Directors. When Marv became ill and decided to give up the presidency, an election was held to choose a successor. Steve says he must have left the room when the elections were held, and when he came back in, he had been elected president. Steve has admirably served the association for 13 years.

Steve dedicated himself to the core function of the association, the awarding of scholarships. In his first year on the scholarship committee, HAA

gave out about 30-40 scholarships, totaling, approximately, \$40,000. He is most proud of the growth of this function of HAA, so that this year, over \$100,000 has been given to over 100 Hamilton graduates. He is the chair of the scholarship committee. Over \$1 million has been given over the past 30 years. Steve has been instrumental in achieving this landmark.

Many of us have met Steve on the phone after a donation. Steve would call many donors to say "thank you" and chat a bit. This meant many hours of work. Some of us even got invited to join the board after Steve identified individuals with needed skills. Steve said many times how impressed he was with the membership of HAA, talking about a doctor who had wiped an infectious disease off the face of the earth, another who helped write a portion of the ACA or Obamacare, or another who started the Great American Smoke Out, which helped thousands stop smoking. There

are authors, tech people, and successful entrepreneurs. Steve noted how all shared a love and a thankfulness for having gone to Hamilton.

Before the COVID pandemic, meetings were held at the school. Though not on the agenda, Steve would have to excuse himself at precisely 10:59 to stand over the enter key on his computer to submit his group's golf reservation for the next week. The board could tell if it went through or not by his smile.

Leaving the board and association in such good shape shall forever be the legacy of Stephen Angel. He continues to join our meetings and contributes to the scholarship committee.

As you know, (see the article above), Tom McLurkin has been elected HAA president, effective July 1 of this year. Tom comes to us with a long and varied career. We are lucky to have him. The baton is in good hands. 🏆

SCHOLARSHIP AWARDS

THE SCHOLARSHIP COMMITTEE SELECTED 104 DESERVING STUDENTS FOR SCHOLARSHIPS. TWO ADDITIONAL GRADUATES, SKYE WALKER AND NICOLAS JACOBO, WERE RECOGNIZED WITH THE *ATHLETE OF THE YEAR AWARD*, AND KINIDI CURL RECEIVED THE PRESTIGIOUS *WARREN MOON SCHOLARSHIP*.

ON MAY 28, 2025 WE WERE PROUD TO SHARE THAT THIS YEAR THE HAMILTON ALUMNI ASSOCIATION AWARDED 106 SCHOLARSHIPS, TOTALING \$112,050.

Thomas McLurkin and Kinidi Curl

Supporting graduating high school seniors through scholarships is one of HAA's most important goals as we strive to invest in the next generation of leaders, dreamers, and achievers. These scholarships not only help ease the financial challenges of pursuing higher education but also encourage students to follow their aspirations with confidence. By uplifting promising young scholars, the Hamilton Alumni Association

Kinidi Curl and Warren Moon

honors the legacy of our graduates while strengthening the connection between past and future alumni—ensuring that opportunities and support continue to be passed forward! 🏆

SCHOLARSHIPS

We ask scholarship recipients to share their feelings about receiving an HAA scholarship.
Here are a few responses:

Dear Hamilton Alumni Association:

Thanks to your scholarship, I can help pay for my dream of attending college at UC Berkeley and studying medicine.

Lucas Bernani

Thank you for your generous scholarship. My dream, my entire life, has been to go to college. As a first-generation Korean American, when I realized, I would have to pay out of pocket on my own, I thought my dream would never come true. Thanks to you, it now will.

Ciel Choi

You have made a significant contribution to funding my university education. I am grateful for the work you do, and thank you for selecting me.

Nehemius DeJesus

I would like to thank you because this money will really help me. I was starting to get worried about my college payment, but this really reduced my stress. Thank you!

Luis Soto Hernandez

I would like to thank you because I was one of the students who was awarded a scholarship. This will really help me with my future studies. Also, this brought a lot of joy to me and to my family!

Sincerely, *Fernando Lopez*

Thank you for the opportunity that allows me to continue with my studies. It is really helpful to me and to others who need help to prosper in the future. We all appreciate it.

Roberto M.

I would like to thank you because this scholarship will help me greatly with my financial needs at Howard University. I am so deeply honored and grateful. The Hamilton Alumni Association is an amazing organization to help students with their financial 'gaps.'

Thank you, *Kaana Lopez Spears*

You have given me the opportunity to go to college with less of a worry of how to pay for it. This scholarship will go a long way.

Thank you, *Michael Cazan*

I would like to thank you because you awarded me such a significant scholarship that will help me with college.

Thank you, *Andrew Corzine*

I would like to thank you because with my scholarship, I will be able to follow my dreams and even remember all the memories I have made along the way. This scholarship motivates me to keep doing musical theatre, and I cannot thank you enough.

Sincerely, *Madison Fujioka*

Thank you for all the effort your group has put into ensuring the success of kids like me.

Y Kibota

I would like to thank you because you allowed me the opportunity to get more money to fund my education. I am so grateful you saw my potential and my desire to go further in this journey. I hope to live out the expectation you see in me and use this opportunity to go higher.

Sincerely, *Samantha Lozano-Gutierrez*

THANK YOU so much for this incredible scholarship. It will be so useful, and it feels very nice to learn that hard work is worth it! Genuinely, I was surprised, and it felt wonderful, so thank you!

Sincerely, *Oliver Pzrdo*

Your ability to help in my education has lessened my stress as a barrier to higher education. I am one of many you decided to support, yet for me, it was everything. I am thankful for your support of my dream.

Thank you, *Praxedis Velasco*

PLANNED GIVING

BENEFITS THE HAMILTON HIGH SCHOOL ALUMNI ASSOCIATION

**A gift to the
HAMILTON HIGH SCHOOL ALUMNI ASSOCIATION
is a significant way to provide
SCHOLARSHIPS TO GRADUATING SENIORS!**

- To make a qualified charitable distribution (QCD), donors must be 70½ or older at the time of the transaction.
- Funds should be transferred directly from your financial institution to The Hamilton High Alumni Association.
- This gift can be in any amount, up to \$100,000 per person (\$200,000 for a couple with separate IRAs).
- If you have personalized checks for your IRA account, please contact The Hamilton Alumni Association for specific information, to ensure your wishes are met.
- The amounts that are rolled over are not subject to income tax.
- For clarification of the tax deductibility of your donation, please consult your tax advisor.

Thank you for your support!

For more information, please contact:

Bob Raskin, kab6plus9@gmail.com

CUSTOMER RELATIONSHIP MANAGEMENT (CRM)

BY DIANE ROSENBERG GLICKMAN
CRM Project Manager

THE HAMILTON ALUMNI ASSOCIATION (HAA) is excited to share that we have adopted a new Customer Relationship Management (CRM) system to help us strengthen our connections with our alumni community. A CRM allows us to centralize and update membership information, track engagement, and communicate more effectively with our members and supporters.

To make this possible, we have partnered with the JOAN Collab-

orative, a woman-owned strategic consulting firm with expertise in communications, strategic planning, and advocacy. JOAN brings deep expertise in nonprofit strategy and organizational management, having supported dozens of organizations to streamline systems and strengthen outreach. Their team has guided us in designing and launching our CRM system.

We are using HubSpot, a leading CRM platform, to keep accurate records and timely messages. This past summer, you may have received letters from our past president, Dr. Steve Angel, thanking you for your years of support, and from our new president, Tom McLurkin, introducing himself and sharing his gratitude. These communications — and future ones — are made possible through this new system, which helps us stay better connected to you.

If you have not received recent updates, we may not have your current email. Please share your NAME, GRAD YEAR & EMAIL with us at info@hamihighalumni.org. Also, you may have received our emails, but they might be “stuck” in your junk or spam email folder. If so, locate the email, click it, and indicate that “it is not spam,” and you will be able to receive our emails in the updated folder. This is a very safe way to get our communications. If you don’t have an email, perhaps a child, other close relative or friend could receive HAA emails on your behalf.

HAA is moving forward into the 21st Century, and we want you to be with us. Also, do not forget to visit the Hami High Alumni Association at hamihighalumni.org when you get a chance.

We look forward to hearing from you. Be well and remember that knowledge is power! 🧠

CALLING ALL EMAILS!

Our Alumni Association is seeking 400 email addresses of members for whom information is currently missing.

If you have not received several emails we have sent since April, then we are missing you.

Please contact us at: info@hamihighalumni.org

THE HAMILTON ALUMNI ASSOCIATION MENTORSHIP PROGRAM

By Robert Goldstein, Program Director

THE HAMILTON ALUMNI ASSOCIATION IS PROUD TO LAUNCH THE HAA MENTORSHIP PROGRAM, AN INITIATIVE CREATED TO SUPPORT HAMILTON HIGH SCHOOL GRADUATES AS THEY TRANSITION INTO COLLEGE AND UNIVERSITY LIFE.

AS A MENTAL HEALTH PROFESSIONAL and retired educator, I'm honored to be part of this meaningful effort to help our students thrive both academically and personally. The inspiration for this program came from Ken Turner, Athletic Director, who, over many years, developed a system of connecting Hamilton BSU graduates with college mentors. He made the connections happen, and it worked! Our program is built on a simple yet powerful goal: to provide encouragement, insight, and practical support for all Hamilton graduates entering higher education. By connecting new graduates with experienced alumni Mentors, we're fostering a community of support that empowers students with the skills, knowledge, and confidence they need to succeed.

**HAMILTON
ALUMNI ASSOCIATION**

**COLLEGE
MENTORSHIP
PROGRAM**

HAA College Mentors assist first-year college students in navigating the college experience, building campus engagement, and achieving academic success. Mentors focus on helping students develop awareness and essential skills, such as using campus resources, managing time, setting goals, and developing study habits. This program is **100% FREE** to Hamilton High School graduates

☒ Access campus support services	☒ Time management	☒ Utilize professor office hours
☒ Campus engagement	☒ Maximize college experience	☒ Navigate campus

**For more information contact
Robert Goldstein, Mentorship Director
rdglna@gmail.com**

Flyer distributed to all seniors promoting our Mentorship Program

Purpose and Goals

This program provides graduates with the opportunity to be paired one-on-one with a Hamilton alumnus, a mentor, who has successfully navigated the college experience. Through this supportive relationship, mentees will receive academic, social, and emotional guidance to help them confidently embrace this new chapter.

The HAA Mentorship Program is built on a simple yet powerful goal: to provide encouragement, insight, and practical support to Hamilton graduates entering higher education. By connecting new graduates with experienced alumni mentors, we're fostering a community of support that empowers students with the skills, knowledge, and confidence they need to succeed.

Primary Goals

Mentors will guide students in key areas, such as:

- Accessing campus support services and resources
- Effectively utilizing their professor's office hours
- Discovering social and extracurricular opportunities
- Getting involved in research, clubs, and internships

- Strengthening time management and organizational skills
- Navigating college life with confidence and balance

Mentor Colleges and Universities *(More may be added when new mentors become available.)*

- **West Coast:** Cal State Fullerton, The Claremont Colleges, Loyola Marymount University, Occidental College, UC Berkeley, UCLA, UC San Diego, UC Santa Barbara, UC Santa Cruz
- **South:** Grambling State University, Rice University, Xavier University
- **East Coast:** Harvard University, Howard University, New York University, Wesleyan University

Long-Term Impact

The HAA Mentorship Program serves as a valuable bridge between high school and college, fostering lasting connections between Hamilton alumni and the next generation of graduates. As we grow, we envision current mentees stepping into the role of future mentors — extending this circle of support and building a strong, engaged alumni network. Together, mentors and mentees will create a legacy of connection, resilience, and achievement — one that reaches far beyond the classroom and into lifelong success. 🏆

NORM LANGER '62

LANGERS DELI

704 So. Alvarado St. Los Angeles, CA 90057

(213)483-8050

LoxnCrCh@aol.com

Jean, Norm and Al Langer on the set of the 1955 Warner Bros. release 'Miracle in the Rain,' with star Jane Wyman. Langer's still provides catering to film and television productions throughout the Southland each week.

If you could describe yourself in just one word, what would it be?

INVESTIGATIVE

How did Langers get started?

The story of our deli began in 1905, with the arrival at Ellis Island of my grandparents, Harry and Rose Langer, from Odessa, Russia. A tailor by trade, Harry settled with Rose in

Newark, New Jersey. They had three children, all boys: Joe, Al, and Morris. In 1924, Al, age 11, got a job at a local delicatessen as a busboy, cleaning tables and assisting the waitresses. As he grew into adulthood, Al continued to work in delicatessens throughout the greater New York area and even had a stint in Miami. It was during this time that he perfected his ability to hand-slice pastrami, a

"lost art" knifing skill that preserves the juicy flavor and tenderness of the meat during cutting. As a result, Al became a highly sought-after delicatessen counterman.

Moving to Los Angeles...

In 1936, Harry, Rose, Joe, and Al Langer relocated to Los Angeles, where Al began working at a variety

of delicatessens around Boyle Heights in East Los Angeles. Al's first experience with entrepreneurship was in the fall of 1936, when he opened a deli in Palm Springs. And because everything had to be trucked from Los Angeles, keeping ingredients fresh for his patrons posed a challenge. In particular, the rye bread quickly turned stale during transport, so Al devised a solution: put the loaves back into the oven and re-bake them, giving the bread a warm, super-crispy crust. This instantly became a favorite of his patrons! This "re-baking" technique is used to this very day at Langer's Delicatessen-Restaurant on every loaf of rye bread we serve. The Palm Springs deli only lasted one season, and Al returned to Los Angeles, where he worked at a Hollywood delicatessen, adjacent to the Paramount Theater, as the lead counterman. He met and married Jean, went to serve in World War II, and when he returned, they opened a small deli on 8th and Irolo Street, and then moved from there to the current location. The deli, with a mere 12 seats, was located diagonally across the intersection from MacArthur Park. It would become the Langer's Delicatessen-Restaurant we know today.

It was during the 1950s and early 1960s that Langer's Delicatessen-Restaurant became famous for its delicious pastrami and hot, crispy-crust rye bread. Al created the #19 sandwich: hot pastrami, cole slaw, a slice of Swiss cheese and Russian dressing on hot rye — and it quickly became the deli's most popular sandwich, a laurel which it holds to this very day.

Changes in the neighborhood...

By the late 1960s, most of the Jewish residents had moved to the mid-Wilshire, Westside or San Fernando Valley, and the neighborhood became less desirable for major retailers. Large businesses closed, and MacArthur Park, across the street, began earning a reputation as a drug haven. The restaurant cut back on hours and saw harder times than in any other period of the deli's history.

Then, in the early 1970s, I began to take a more active management role and worked closely with the Los Angeles Police Department to help improve the quality of life in the neighborhood. More than just deli

neighborhood. The impact of these actions resulted in a safer and more hospitable environment in which to operate our business, and ultimately more inviting for customers. The revitalized neighborhood also presented a more welcoming face to patrons from Hollywood, mid-Wilshire, and the Westside.

The Metro Red Line

The modern era of Langer's success dawned with the completion of the Metro Red Line subway and the opening of the Alvarado Station one block from the deli in 1994. For the first two years of operation, Metro allowed passengers to ride the line for free for a heavily discounted fare.

Hungry workers in downtown skyscrapers began to take a short ride on the subway to Langer's for lunch, driving new business to the deli. It's not uncommon to see a huge burst of customers between 11 AM and 2 PM on any given day!

Langers... a legend!

We are proud to have become a culinary legend, earning accolades from quarters as diverse as the James Beard Foundation and Hollywood director Nora Ephron. We have been featured on countless television and newspaper accounts, served as a location in dozens of film productions, and are revered worldwide for our delicious pastrami!

Al passed away shortly after the 60th anniversary celebration in 2007. Today, I continue to enjoy managing the deli with my wife, Jeannette, open six days a week (Monday through Saturday), 8 am to 4 pm.

owners, our family became recognized by civic leaders as instrumental in helping clean up the MacArthur Park district of Los Angeles, working closely with LAPD Community Policing efforts to bring more of a personal presence of law enforcement to the

FRED HOPSON '83

RIBS IN LA

ribsinla@gmail.com

How would you describe yourself in one word?

LEGEND

What inspired you to start a bbq business?

I had worked for Herbal Life for 15 years, and then, in 2018, I was let go. I had cooked my whole life, and back in the early 2000s, I competed in BBQ competitions and won first place in every competition. I was engaged to be married. I told my fiancée that I had been let go, and she said, “Fine, we can start our own business.” The rest is history!

***Tell us about ribs**

Ribs is a small Los Angeles-based company, started at home by my wife, Nyesha, and me. We offer a signature brisket and an award-winning in-house BBQ rub. Our brisket is cooked for 20-24 hours, and after 10 hours, we wrap it in foil to finish it. People line up on the weekend for our brisket, and it sells out first. Our brisket is special and stands alone,

because we have a method from start to finish that is unique to us. We are smoking the briskets and closely monitoring them until the finished product is ready to be enjoyed by our customers. It is butter-knife tender, and you don’t even need teeth to eat it! Brisket is only sold on Saturdays at our Pop Up and, also, for special events.

Our pork rib tips are also a hit. We have special smoked chicken sausage that is superb. All of our sides

are homemade from scratch. Our mac and cheese, coleslaw, beans, potato salad, and greens—everything is made from scratch. We always say, “We don’t charge you for the food, we charge you for the vibe and flavor!!!”

Fred, I know many Hami graduates are going to want to try your food. Where can they find you and your lovely wife and your amazing BBQ?

OPEN: Tuesday, Wednesday, Friday, Saturday

Tuesday – UCLA at 10945 Le Conte Ave @ Bixel, 12:00 pm -2:00 pm

DARNAI THOMAS '96

PRIVATE CHEF DARNAI LARUE & THUNDERBOLT COOKIES

chefdarnailarue@gmail.com

How would you describe yourself in one word?

GRATEFUL

What inspired you to get into the food business?

I was inspired by my grandfather. He was not a chef, but he was my culinary inspiration. He always cooked during the holidays, making everything from scratch, while my grandmother prepared the desserts.

How did you get into catering?

I was interested in food and decided to go to culinary school. I soon realized that I didn't want to work in a restaurant, but enjoyed cooking, and could provide catering services. I enjoyed interacting with people and valued the personal connections. I saw that I could simply contact my closest network of friends and start cooking for parties and dinners. It was an easy way to start. My favorite event size is 25 or less but I have catered 50-250 guests. I also did individual meal prep for a while, but found it was not as profitable, so I discontinued it.

My top favorite recipes:

The top favorite recipes I provide are: Shrimp and Grits, Fried Chicken, Caesar Pasta Salad, Taco Eggrolls, Bolognas, Lasagna, Collard Greens, and Short Ribs.

What were your biggest challenges getting your business started?

The biggest challenge was having all the necessary items with me for a successful event: the food, insulated boxes, chafing dishes, and a vehicle built to carry everything. In the beginning, I didn't think of all these details, but I learned. There was so much to consider—more than just dealing with people, menus, and prices. Time management was essential and having space to prepare—like a commercial kitchen—and proper storage became critical. I learned “on the fly,” making mistakes and dropping the ball along the way. I observed other chefs who showed me the way. There was so much I didn't know, and I have learned so much.

Please tell us about your famous THUNDERBOLT cookies.

Thunderbolt was my grandfather's name! The cookie connection came from his loving cookies. My aunt used to make a great cookie dough, and I asked her for the recipe! I checked out all the popular brands: Famous Amos, Mrs. Fields, Diddy Reese, etc.. I became a cookie connoisseur and

wanted to create something unique! Thunderbolt was born! Our most popular cookies are: Chocolate Chip, Wildest Sweet Potato Pie Cookie, and Strawberry Cheesecake, all of which can be ordered online.

Where would you like your business to go?

I'd like to continue building my client base and offering private catering services. In addition, I decided to work daily at Vista Del Mar, providing the residents with a higher quality of meals. It gives me an opportunity to give back, and I truly enjoy it.

Regarding your time at Hamilton, you were on the basketball team, and you played college basketball. Do you think participating in sports has helped you in business?

Yes! What you learn in sports is to be disciplined, to “lock in” focus, to practice, to show up early, and to work as a team. I believe that being an athlete helps with developing “people skills,” cultivating a strong work ethic, and learning to be goal-oriented. Since most chefs don't start off as the “main person,” they begin in a supporting role, as a member of a team, everyone depending on each other, knowing if someone “needs a push,” and being there for what is needed. So, for sure, being part of a Hamilton team helped prepare me for my future!

DANIEL JOHNSON '06

POTLUCK LOCAL — Neighborhood Grocery Store

4705 York Blvd, Los Angeles, CA 90042 (Eagle Rock)

www.potlucklocal.com

(Open 7 days a week, 9:00 am to 8:00 pm)

If you could describe yourself in one word, what would it be?

ORANGE!

What inspired you to open a market?

My wife, Kim, and I had worked in the food/beverage industry for 10 years. After graduating from Hamilton, I moved to New York to begin an acting career. I worked in restaurants and as a bartender for several years, and then moved back to L.A. One day, Kim and I were in a big grocery store, and we realized that it was hard to find local produce. After years of working in food and beverage, we realized that fresh produce was readily available, thanks to great farmers and places where we could get the freshest ingredients. We also realized that we missed the New York neighborhood bodegas. So, we started looking for spaces, and a spot opened up in the Eagle Rock neighborhood. We also knew that we wanted to be part of a neighborhood, didn't want to work at night and wanted to spend time with our young family.

How did you come up with the name for the grocery store?

Kim and I have always loved doing potluck dinners for friends. It just seemed that this name would be easy for people to understand and

remember. We wanted it to embrace the idea of: "Come here to get what you need to bring to your friends."

What did you learn, opening a business in L.A?

There are a lot of hoops to go through: Figuring out what people want to eat/drink... what people are excited about... what they want and need. We provide products made by people within a 10-mile radius, products that people didn't know about. It's a wonderful platform for small local businesses.

We learned that it takes longer than you think to get things going. But we also learned that there is such a hunger in L.A. for spaces like ours. People tend to prefer shopping or dining at businesses run by their neighbors; this preference reflects a

deep-seated hunger for community in the vast Los Angeles area. Rickie Klein designed our grocery, and friends, family, and the community came out to support us. We didn't realize how much people were looking for places to just say "hi." We now know people and know their dogs' names. People come in for a sandwich; maybe we are the first folks they have had an in-person conversation with in a while.

How did you secure your initial funding?

My wife is a chef, and I am a bartender. We thought about opening a diner, but what we are doing is much less expensive than a restaurant. We were able to get started with some private loans and savings. It is really tough to get a small business loan unless you have been open for three years, so just starting up is a challenge. We are grateful that we were able to do it.

How many do you employ?

I work full-time, along with five part-time staff members. Many are friends, and one is the husband of another Hamilton friend...

What can someone find at your grocery store?

We have prepared food, along with grab/go salads, frozen pizza burritos,

wontons, beer, & wine. Coming from the bartending world, I love curating that area and serving all California and Mexican beverages. We also have local ceramics, woodwork, cookbooks, and gifting items!

Can we drink a beer at Potluck Local?

No

What are the goals for the market?

We are trying to live a good life and be part of the community. Roma Market in Pasadena is a market I admire. I would be happy if I could run our market for a decade or two, watch my kid grow up, and feed my family and the community. We are not trying to be millionaires, just living the best life we can.

What about your building?

This is a cool example of taking an old building that was not in use and is now a vibrant addition to the neighborhood. We are open 11 hours a day and a surprising number of people, 100-150, come to shop every day.

Can customers dine in?

Yes, we have benches where people can sit down and eat, and we are in the process of getting tables. We find that most of our customers walk to the market; however, it is also easy to drive/park.

What about advertising?

Our only advertising is on Instagram; it seems to be a necessary evil. We will be having a grand opening party, and send an invitation to the Eagle Rock neighborhood, which we love.

What advice would you give someone who wants to start a food business?

I'd say, "If you want to do it, do it!" It is rewarding and fun, and so lovely to be part of a community. We have so many, many wonderful conversations with our customers who become our friends.

How did you end up at Hamilton?

I went to middle school in Reseda and was interested in theater. A middle school teacher told me that I needed to audition for Hamilton if I wanted to be an actor, and he said that it would be the best place. So, I enrolled, commuted from Van Nuys every day, drove those 12 miles, sometimes two hours to get home. I did choir and theater, and it was wonderful. I met great people and got a first-class education.

Who was your favorite teacher?

My favorite teacher was Mr. Schreier, in Musical Theater. I had him at the end of his career. He taught us about the importance of hard work and the value of not taking shortcuts. He was not an easy teacher; he held people to a high standard, which is part of why I still keep in touch with some folks from Hamilton in the arts. I still see so many buddies from Hamilton; it is the best!

Anything else?

I have such fond memories of some establishments near Hamilton. One of the reasons I have enjoyed being in the food business is my fond memories of restaurants growing up. I fell in love with the food/beverage world and how it can positively impact people.

HANNAH ZISKIN '06

QUARTER SHEETS RESTAURANT

Address: 1305 Portia St., Echo Park

www.quartersheetspizza.com

How would you describe yourself in one word?

MOXIE

What inspired you to open a restaurant?

After graduation, I went to U.C. Berkeley to study urban agriculture, but I soon discovered that the restaurant business was calling to me. I had always liked baking. My real introduction was working in the pastry department at Chez Panisse in San Francisco. For the next 12 years, I worked in several restaurants, including Urban Garden, Quince, and Petonia, where I learned how the restaurant business operates.

In 2018, working at the restaurant Nopa, I finally felt ready to move back to L.A. My best friends were here, and so it just seemed like the right time to move back. I met Tara at Native Market and tried to get our Quarter Sheets Pizza into the market. I spent time with Daniel Johnson at Potluck Local, and then the pandemic hit.

During COVID, my husband, Aaron, and I cooked at home and created a “pop-up” business from our house. After a few years, we realized we could start an authentic restaurant, a pizza parlor, and serve our rectangular Detroit-style pizza! So, after 13 years together, we found the

right little space, in the Echo Park area of L.A., and opened on New Year's Day, 2022.

What were your biggest challenges?

The biggest challenge in starting the business was dealing with the city of Los Angeles; everything was very complicated and challenging. We had a significant problem just trying to get the broken sidewalk in front of the restaurant repaired.

Securing our location worked out well, as we were able to secure a key money deal, buying the lease from a previous tenant. It took about

three months, but was worth it, as constructing a kitchen is expensive beyond belief. We are looking to expand, but it is challenging.

How did you assemble your initial team?

We started with just two of us, my husband, Aaron, and me. As the business grew, we added staff. We sought staff members who love hospitality and food. Aaron added additional cooks and pastry chefs. We grew from two to 22 staff members and became more than just a pizza place. Some of the best things we have are not pizza! We now have both take-out and dine-in seating, make fabulous cakes, and even serve house-made ice cream!

What were the biggest challenges you faced during the opening process?

Opening the restaurant was so hard, especially as 90% of our friends said, “Don’t do it!” This is a business that you really have to love and be sure you want to do, as the profit margin is small. You must like to entertain. It is like having people in your home. The hospitality side is so rewarding. We have many, many returning customers, and the sense of community is strong. This business is not for the faint of heart; it has to be a true labor of love.

From the beginning, we made some important decisions regarding: • Staffing: We decided to make our staff important. We would offer benefits to staff: health care, a 401K, and paid time off. We would also pay more than many other restaurants, as staff happiness was important to us. We have several long-time staff who have been with us since the beginning, three-and-a-half years ago. • Creating a positive customer experience: We aimed to make	our service style rewarding for customers and to provide a human touch. Dining out is a special experience, and we want to be sure our guests enjoy it. • Special “rules”: Due to our restaurant’s small size (seating 30), we’ve had to limit seating to parties of 2 or 4. Reservations are also in high demand! The best time to get a reservation is the day you want to go! Make a reservation on our website.	Thinking back to Hamilton: I fondly remember Mrs. Felcher — my favorite English teacher. Still, to this day, I remember her as the best teacher, the best writer, tough in the perfect way, and I write well because of her. At Hamilton, I was in the music academy and worked as a stage manager. I’m pleased to say that I believe the management and organizational skills I learned there have helped me to succeed today.

CAREER SPOTLIGHT: Alumni in the Food Business

TARA ROBINSON '08

MAYDAN MARKET

4301 W Jefferson Blvd, Los Angeles, CA 90016
www.maydanmarket.com

How would you describe yourself in one word?

AMBITIOUS

Tara Robinson’s story is one of bold choices, global adventures, and a deep-rooted passion for food. From her early days on the softball field to leading some of the most exciting culinary projects in Los Angeles, Tara’s journey is a testament to following your heart—even when the path isn’t conventional.

Early Life and Athletic Beginnings

A proud alumna of Hamilton High School, Tara played softball for four years, earning accolades and even an opportunity to play at the collegiate level for University of

Nevada, Las Vegas. But when faced with the choice between continuing her athletic career or pursuing her culinary dreams, Tara chose the latter.

“I knew from a young age — around seven — that I loved food,” she recalls. “When I found out it was a job you could get paid to do, I was sold.” Inspired by the Disney movie Eddie’s Million Dollar Cook-Off, Tara followed her heart to the Culinary Institute of America in Hyde Park, New York.

Culinary Education Across Continents

Tara’s time at the Culinary Institute was transformative. She earned an associate’s degree in culinary arts and a bachelor’s degree in restaurant management. Her education wasn’t confined to New York—she studied in

Chengdu, China, immersing herself in Sichuan cuisine and rural culinary practices. She also completed a secondary program in the Basque region of Spain, further expanding her global culinary perspective.

Breaking into the Luxury Hospitality Scene

After graduating in 2012, Tara began her professional journey at the Ritz-Carlton LA LIVE, becoming a beverage department supervisor at just 21. This

early exposure to luxury hospitality set the tone for her career. She later worked at Michelin-starred the Elm restaurant in New York, under Chef Paul Liebrandt, then returned to L.A. to rejoin the Ritz as a food and beverage manager. Her resume grew to include roles with Roy Choi’s Pot at the Line Hotel, Marriott Marina Del Rey, and José Andrés’ Bazaar as restaurant manager. Leadership and Innovation Tara’s leadership skills flourished as she became general manager at James Republic and later joined the EDITION HOTEL in New York. She weathered the pandemic with resilience and eventually transferred to the West Hollywood EDITION. Her next big move was opening the Gathering Spot, a private membership club in West Adams. “We had 10 Hamilton alumni working there and 30 more as members,” she says proudly.	Maydan Market: A Culinary Vision for Community In 2024, Tara took on a new challenge: leading community efforts for Maydan Market, a Michelin-star concept set to open in West Adams. The market will feature five distinct restaurant experiences: 1. Maydan-One: Michelin-starred DC concept coming to L.A. 2. Compass Rose: Global cuisine 3. Chef Poncho Lughya’h: A Oaxacan indigenous concept. 4. Ying Yahng: Thai BBQ. 5. Club 104: A rotating pop-up residency for chefs from L.A. and around the world. “We were intentional about opening in West Adams,” Tara explains. “It’s one of L.A.’s last true neighborhoods. We wanted to bring global cuisine to an underserved community.” She’s also gained a deep understanding of MENA (Middle	Eastern and North African) cuisine and culture through the project. “Maydan means ‘square’ or ‘neighborhood,’ and Tawle means ‘table.’ We want people to share food and stories.” Maydan Market is opening soon! Still Crushing it on the Field Despite her culinary commitments, Tara hasn’t left softball behind. She plays in a women’s league and still hits home runs. “Hopefully, my MVP plaque is still up in the girls’ PE office from 2008,” she jokes. Final Thoughts Tara Robinson’s journey is a vibrant blend of sport, culture, and cuisine. Her story reminds us of that passion, when pursued with purpose, can lead to extraordinary places—from Chengdu’s open-air markets to Michelin-star kitchens and community-driven food halls.

CAREER SPOTLIGHT: Alumni in the Food Business

CARLA SUBERO '09

CHAINSAW LA

5022 Melrose Ave. Los Angeles, CA
(Melrose & Western)
www.chainsawla.com

How would you describe yourself in just one word? COOK What inspired you to get into the food business? At Hamilton, I was a member of the	music academy. I was in a band, but, actually, I was more interested in food! After graduation, I went to UC Santa Barbara and got a BA in cultural anthropology. While there, from 2009 to 2011, the pop-up supper club culture was just beginning. I loved the idea, so the 19-year-old me started	one in my apartment! I was feeding 70 kids every Sunday and loving it! After graduation, I realized I had a talent for this, and instead of pursuing a master’s degree, I decided to become a chef. My dad certainly didn’t like this idea, but I went off
--	---	--

to Paris to experience international cooking. When I returned to L.A., I worked at the restaurant Animal and experienced the big food scene (it is John and Vinny's now). And it was at this time that I realized I didn't like working in restaurants, but I liked cooking!

What does the name Chainsaw LA mean?

It's just a name. It came from a little dog that was the barkeep's "host" at a place where I once worked. It was "Dog Hospitality," and the name just stuck with me. Eventually, I got my own dog and named her Ruby Chainsaw!

How did you get started?

Chainsaw began as an "illegal" restaurant in Echo Park. For more than six years, we have hosted community gatherings around open-fire cooking, featuring the roasting of whole animals outdoors. Then, during the pandemic, when people could not gather, we would "basket-deliver" meals and desserts to customers from a second-story window. Our "pick

up pully system" brought joy and a delicious meal to our customers!

I also did private "once a weekend" events and public popups. I found that I could charge more for the private events, so that continued. Events would be posted on Instagram. We would set a time window, and people would pay ahead, coming with a prepaid ticket. It was a set menu, served "dim-sum-cart style." Paper carnival tickets were provided to guests and they would "pay" with the tickets! We did "contactless deliveries" using a "biblical" basket delivery system from the 2nd floor!

After the pandemic ended, I kept the business open for a while and reintroduced a backyard "hang" restaurant. We probably had over 5,000 people in a backyard in Echo Park! Today, five years later, as I prepare to open Chainsaw soon in the city where I grew up, I feel like I'm graduating; I'm finally opening! And I'm super excited now!

Did you move into a restaurant space or have to create it on your own?

I am moving into a restaurant space, but it has been challenging and extremely complicated. Recently, I was unable to work for a while due to an accident. Fortunately, I was able to work with a company that helped me get the necessary permits, which isn't something anyone can do easily! It has been extremely difficult, and no one prepares you for the final moments. It's been a lot about the "invisible stuff" over the past year, all the things you don't see, until it is time to open.

Staffing:

The restaurant is not yet "staffed," but I do have a loyal team of freelance

cooks and chefs, all women, who are eager to work with me. I found these ladies, one by one, and there were some "misses." I now realize that I can quickly identify if someone will or will not be a good fit!

When you think of Hamilton, what do you remember?

I remember the long daily bus rides from Van Nuys. The music academy took a lot of time, but I loved choir and electronic music. I enjoyed school and the community I found in the music academy, which gave me a beautiful feeling of being with people of similar interests and a deep sense of connection. The academy was not designed for exploration but was based on merit. Some could make it, and others could not. Some had great natural talent and the inspiration to drive the rest of us to be better. Hamilton was cool because it felt like everyone was wildly talented.

Thinking back, I remember cutting class and going to the beach, and I wish someone had inspired me to get involved in sports.

Who were your favorite teachers?

My favorite teachers were Ms. Felcher, Mr. Bruning, and Miss DeCarlo. Thinking about Ms. Felcher, who taught English: She was such an amazing and inspiring educator. She had her students, as seniors, write a letter to their future selves, and she mailed it to them when they were 28 years old!

What can we expect when Chainsaw opens? It is a dessert shop, inspired by Venezuelan sweet treats, offering pies, ice cream, and coffee. Hours: 11:00 am-10:00 pm. I'm also still running my private catering business! 🍰

WE EXTEND OUR HEARTFELT COMPASSION
TO THE MEMBERS OF THE HAMILTON ALUMNI COMMUNITY
WHO WERE AFFECTED BY THE LOS ANGELES AREA FIRES IN JANUARY.
OUR THOUGHTS ARE WITH YOU DURING THIS CHALLENGING TIME
AS YOU WORK TOWARD RECOVERY AND RESTORATION.

'49 THERESA GOLLER LAWSON '49, Dana Point, CA. I so enjoy reading the Bugle and just finished the Spring edition. I love reading about all the happenings, but I noticed some of the obituaries are excessively long — two of them were both two pages. Maybe they deserved that coverage, but even the rest are quite lengthy.

I would like to see more pictures of the campus, as there have been so many changes since I graduated with the Eurekans '49. Yes, I'm 94! Wonder if the rock is still there? It was where the tough guys would eat lunch on top of the large trash cans — near the quad... Maybe some pictures of the surrounding area? What is on the corner where the Hami Huddle Soda Shop used to be?

Love the recipes!

Thanks for all your efforts in keeping us in touch with the best years!

'56 GERALD (JERRY) THOMAS '56 — I served in the Air Force after graduation, spent 10 years in aerospace, finished college at Long Beach State, and taught industrial arts in Arcadia for 29 years. Since retiring, I've gone on several mission trips with my church. Some of the trips involved teaching, some were for construction, and others were medical. Hamilton High has always been special.

'60-'61 THE COUNTS '60 – '61 — On July 11-13, 2025, The Counts held a reunion in Carmel, California. At least half of those attending were together at Crescent Heights Grammar School and have known each other for 78 years. The event was initially organized by Larry Biegel. It included a welcome dinner where everyone had 6 minutes to recall the last 60+ years, a 2 ½ mile hike (not too bad for us), a farewell dinner, some shopping, the Monterey Aquarium for some, and just an amazing time!

LEFT TO RIGHT:
Front Row: *Jim Zimring,*
Second Row: *Mike Landman, Alan Weisberg,*
Third Row: *Larry Biegel, Jerry Medway,*
Fourth Row: *Steve Zusman, Bruce Sacks,*
Fifth Row: *Denny Caspe, Bob Jason,*
Sixth Row: *Mike Berland, Howard Sherwood*

Bob Jason wrote this while we were at the reunion, which sums up the place in life that hopefully we all can strive to be in!

FRIENDS IN THE TIME OF LIFE

by Bob Jason

It comes to pass

that there are those

who dwell in forgotten dreams

fill the wells of unspoken memories

and come to life in the passing of a night

These are the ones

who set the stage

retell the misfiled stories

and illuminate the path of friendship

A path all too easily hidden

by the passage of time

and misperceived distance

But once discovered anew

can help comprehend

this cosmic mystery called Time

Knowing that these bonds

transcend both time and space

should give us all the strength we need

to navigate what we must face

And face we must

The Truths of Life from which we need not bend

By knowing that we only need to make of

Time A Friend

'64 BRUCE GALANTER '64, San Diego, CA. After a winter of skiing and travel to South America, I had a full knee replacement in May. Needless to say, activity was severely curtailed after that. Time and physical therapy have shown improvement, but it is a long road to complete recovery. I am able to golf, sort of, and now have limited distance on the bicycle. I am trying to build my distance back up. The max so far was 12 miles, whereas I used to go 45 miles twice a week on San Diego's Pacific Coast Highway.

For the HAA Board, I am working on updating our database and migrating to a professional service, HubSpot. It facilitates CRM (Customer Relationship Management). With that, we can establish a database of potential new members and begin reaching out to them.

Looking forward to hitting the slopes next winter.

'66 MARILYN WINSTON KATZMAN '66 — Waikiki Beach, Hawaii. I grew

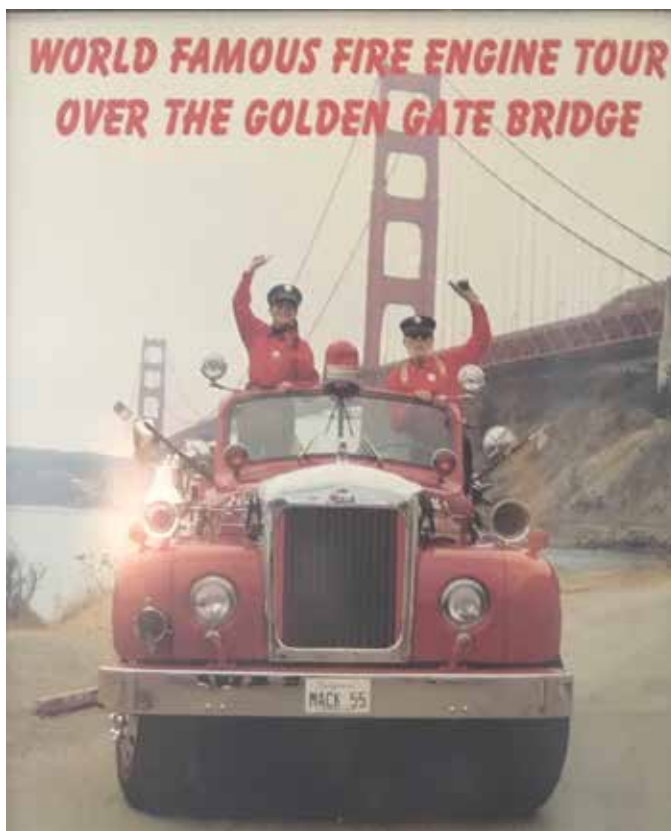

up in Los Angeles, and from the time I was three-years old, my life was filled with music, lights, and the thrill of performing. I began working professionally as a child, appearing in commercials, on television in musical variety shows, TV dramas, and in movies. I loved dancing, and as a toddler, I was one of the Meglin Kiddies and then a

student at the professional Red Shoes Dance Academy with Louis DaPron. Tap dancing was my passion, and it earned me appearances on The Ray Anthony Show, The Gisele Mackenzie Show, Shower of Stars, and several times on The Dinah Shore Chevy Show. I performed in 3 Playhouse 90 shows on CBS, which were taped before a live studio audience: Desilu Westinghouse Playhouse, General Electric Theatre, 21 Beacon Street, Telephone Hour, Crossroads, and Rawhide. Movies included the Ten Commandments at Paramount, the Restless Breed for 20th Century, and several Westerns for California Studios.

I loved my high school years at Hamilton (Valasians W'66). My membership in the Sans Parelles was a highlight, and in my senior year, I served as president of our social & service club. I received a bachelor of arts degree from San Francisco State University in 1975, after traveling and working in Europe and North Africa for several years.

My entrepreneurial spirit kicked in after graduation and blended with my love of performance. My tap dance troupe was recognized in The Guinness Book of World Records in 1994, and for several years after, for long-distance unison tap dancing. We performed tap dancing through the streets of San Francisco and across the Golden Gate Bridge for 9.61 miles, bringing attention to the plight of missing children. A highlight of my adult tap dancing career, which included traveling to Japan, local television, and lots of stage shows, was touring Northern California with Donald O'Connor and the Big Band Alumni Orchestra.

My husband Robert and I lived and worked in our home, a San Francisco Firehouse, Old Engine Co. 33, built in 1896, and we created several businesses over the 50 years we have been together. Our most successful business, which included everything

we loved to do, was “San Francisco Fire Engine Tours and Adventures.” It was a “show on wheels,” entertaining 14 people at a time as we traveled through the streets of San Francisco in our open-air 1955 MACK Fire Engine. After being featured on The Travel Channel, we became an overnight success. Of course, every tour ended with me tap dancing for our “crew.”

We retired to Waikiki Beach in 2011 and have enjoyed our years here, with memorable trips around the globe annually. We have become active members of the Honolulu Lawn Bowls Club and even won the annual International Barefoot Bowls Lawn Bowls Championship in 2020, as well as smaller tournaments over the years. Always singing and dancing, often accompanied by my husband on ukulele, my story has been one of passion, perseverance, and the joy of turning dreams into reality.

'91 LISA KORN MISHKIN, '91 — Guatemala. After a decade teaching in LAUSD, we became a Foreign Service family in 2008. This year we moved to Guatemala, our sixth country. Wherever I am, I join a monthly Zoom call with my Hami besties from the classes of '90, '91, and '92!

'95

NEEMA PAZARGAD '95 — I began playing and performing piano at the age of six. Born to Iranian parents with a love of music and the arts, I began my studies under the guidance of Claudine Perriere and Sheldon Steinberg. After graduation, I attended the University of Denver's Lamont School of Music and the California

Institute of the Arts, where I specialized in solo and collaborative piano studies.

I began my career in piano technology in 2010, under the mentorship of Alan Eder, Richard Davenport, and Kevin Stock. I was exceedingly fortunate to spend nearly ten years studying the craft of piano rebuilding and high-end piano service under the close tutelage and guidance of Richard Davenport.

I have now firmly established myself in the industry, maintaining relationships with piano manufacturers, dealers, and rebuilders. I have successfully completed training courses with Fazioli, Shigeru Kawai, Yamaha, Renner, and Steinway & Sons, and have attended factory-training sessions at the Steinway & Sons factory in New York and the Fazioli Pianoforte factory in Sacile, Italy.

As an independent technician, (NEEMA'S PIANO SERVICE <https://www.neemas pianoservice.com/>), I have provided concert technician services for many of Los Angeles's most important performance venues, including the Microsoft Theater, Geffen Playhouse,

Broad Stage, Alex Theater, Dorothy Chandler Pavilion, Walt Disney Concert Hall, Bing Theater, The Soraya, Universal Studios, Warner Bros. Studio, and Fox Studios.

I have worked closely with a wide range of world-class classical, jazz, pop, and rock artists such as Yuja Wang, Emanuel Ax, Garrick Ohlsson, Jean-Yves Thibaudet, Vadym Kholodenko, Vijay Iyer, Aerosmith, Stevie Wonder, Dave Weckly, Harry Connick Jr, Yefim Bronfman, Wynton Marsalis, Lady Gaga, and Tony Bennett, among others.

I have been closely affiliated with The Colburn School since 2011, and I currently serve as director of piano technology at the school.

'09

ANDRE SHEPPARD 2009 — Since graduating, I've been on a mission to create freedom and opportunity for my family and

others. I now operate a private trading syndicate called The EKAS Group, which specializes in equity futures trading and capital deployment into income-producing ventures.

I'm also passionate about financial education and mentorship, and I have been building a brand centered on

trader psychology, discipline, and leadership. 📈

A LOVE STORY

By Doritt Levine Diamond '58

THE LOVE THAT WAS NEVER SUPPOSED TO HAPPEN... THE RELATIONSHIP THAT NO ONE APPROVED OF... A MARRIAGE THAT WOULD NEVER LAST...

I WAS IN THE 8TH GRADE, AT LOUIS PASTEUR JUNIOR HIGH, WHEN I LOOKED OUT OF THE BUNGALOW WINDOW AND SAW A VERY CUTE BOY RIGHT OUTSIDE. I ASKED THE GIRL SITTING NEXT TO ME, "WHO IS THAT?" SHE QUICKLY REPLIED, "YES, THAT'S SIGGIE DIAMOND, HE'S CUTE, BUT HE IS TROUBLE, STAY AWAY!" STAY AWAY? I JUST WANTED TO TALK TO HIM, TO GET TO KNOW HIM. I WAS IN LOVE!

By 10th grade, I still hadn't spoken to him, but I used to go to the Stadium Theater with my best friend, Linda, and watch him do his very important job as an usher! I'd observe him, longingly, as he walked up and down the aisle with his flashlight. I just thought he was so wonderful! Did he know I was there? No! Did we ever speak? Never, not even once!

Finally, in 11th grade, we had a class together, and I suddenly found myself sitting next to him! I sneaked a glance here and there and watched as he wrote his girlfriend's name on his notebook. Oh, how I just wanted to be that girl! And then, one day, a miracle happened; we started talking, and I couldn't wait to get to that class every day. And then high school was over. We graduated, he went off to the Coast Guard, and I went to college.

July 4, 1963
Linda Henig Camras, Doritt Levine Diamond, Siggie Diamond, and Karl Sussman

Within a few months, I heard from friends that he had been discharged due to a medical issue, and out of the blue, he called me! I was shocked and thrilled, and he picked me up for a 'date.' I was in heaven, but I didn't know he was actually still with his girlfriend, just 'taking a break.' During the next

year, we saw each other periodically, and I was so happy, but I began to realize that this would not last. He still talked about the other girl, so I knew. Then he stopped calling, and I heard he was getting married. Oh no... this was the end...

A few weeks later, I was driving by our local high school and saw him standing in the street beside his car. Panic... do I turn around and leave or face him? I'll face him... I pulled up, rolled down my window, and he leaned in with his big muscular arms on the door... I smiled and said, "Oh, I heard you are getting married. I'm sorry it didn't work out for us... and then he said, in a very deep, quiet voice, "Don't ever say that!" I looked at him curiously and left. When I got home, I told my mother what had happened, and she said, "Oh my God, we haven't seen the last

of him!” (Obviously, my parents hated him since they knew how long I had been chasing this guy!)

And soon, he got married. It was an extravagant wedding at the Beverly Hills Hotel, to which many of my friends were invited. I cried for days, but resigned myself to the fact that I had to accept this and move on. When he returned from his honeymoon in New York, he and his wife were at a party, and there I was, too; we didn’t speak, and I just wanted to die.

My college life continued; no boys that I dated held my interest. Then one day, a friend called me over to his house, and suddenly, HE was there. OMG, what is happening? He told me he was miserable, really wanted to be with ME, and that he was getting a divorce! Of course, I didn’t believe him, and my parents were outraged,

.....

“OH, I HEARD YOU
ARE GETTING
MARRIED. I’M SORRY
IT DIDN’T WORK
OUT FOR US.”...

.....

forbidding me from seeing him. They had seen my suffering and didn’t want me to endure it again. I totally understood, but I saw him anyway. As a ‘smoke screen’ to fool my parents, he arranged for his friends to pick me up at my house. My parents thought I was suddenly very popular, and a great new variety of boys were suddenly interested in me. The truth was, I would be picked up and then dropped off to meet HIM on the corner and go out... Yikes, thinking about it now, I don’t know how I did it.

So, we dated; my parents never liked or trusted him, but I was in heaven. For the next three years, I kept thinking he would go back to his wife. He said he wouldn’t, and he didn’t, and we got married!

As the years passed, we had two children, Eric and Craig, and a grandchild, Seth, and built a wonderful life together, and 63 years later, I still love him as much as I did that very first day when I saw him outside of the bungalow in the 8th grade!

Looking back on our love story with all the risks, roadblocks, and rewards, one moral rings true. Even when we are faced with situations that seem as though they are never supposed to happen, or surely never to last, we must dig deep and always follow our hearts. I’m grateful every day I followed mine.

AN UNCONVENTIONAL LOVE STORY

(but full of love, just the same)

by Natalie Gilbert, W’70 (Bernstein for 32 years)

I HAD A LOT OF FUN WITH THE BOYS BACK IN HIGH SCHOOL, AND SO MANY HAMI CRUSHES — EVEN ON THE TEACHERS, JUST LIKE MANY YOUNG GIRLS DO! THINK: TO SIR WITH LOVE. MR. FUNK WAS MY FAVORITE — SO FATHERLY AND MATURE. I’LL NEVER FORGET HIM LAUGHING WHEN I CAME UP TO TELL ON THE BOY SITTING BEHIND ME FOR DIPPING MY HAIR IN HIS INK JAR... (YES, I’M THAT OLD!)

(As an alumnus of Hamilton, I loved seeing the “Love Story” opportunity in the Fall 2025 Bugle; it woke me up and motivated me to jump in and write. I’ve been meaning to do it for decades, but I’ve just procrastinated this long. The loved ones I’m about to write about are, THANK HEAVENS, still very much alive and coherent, and this seemed to be the right time. And, yes, we are a very blessed family! This gave me just the shove I needed to finally DO IT !!! Thank you, Doritt, and all of the Alumni Association/Bugle team.)

From left to right, Linda Gilbert (sister) W’69, Natalie Gilbert (me) W’70, Marti Gilbert (cousin) S’70, Suzie Gilbert (sister) S’71, Jackie Gilbert (sister) S’72, and last, but not least in any way, and not pictured, Jay Gilbert (cousin) S’66. Yes, I’d say, a passel of Gilberts!

Mr. Funk just laughed, said I was kind of immature to be in his French class of smarty-pants kids, and told me that boys do “stuff” when they like you. They don’t know how to word it yet, but they want your attention, etc. (And yes, I knew that boy DID like me...)

But this story isn’t about all those boys; it’s about sisterly love! I don’t know how many others ever went through Hamilton with the closeness of sisters, which I was so lucky to have, to get me through life. I was surrounded by three (actually, four, counting my cousin Marti, Summer ’70, who was my own age) Gilbert girls. I never needed more girlfriends — I had all the girls I could handle. We stuck together like glue all through those years. I suppose I was never that popular; but, you know, I never thought about it. It started with cousin Jay Gilbert (Class of ’65-ish), then came sister Linda, Class of ’69. Then came cousin Marti

and myself, ’70; Sister Suzie, ’71; and, pulling up the rear, sister Jackie, ’72. Between all of us — and all you alums reading this — some of you HAD to have known one or the other of us. I may not have been such a shining star, but my sisters were to me — and to many of you. They still might be. Especially sister Suzie (who later became Sheina), who used to always bring pizza from their family restaurant, Pizza Station, to feed the hardworking folks at alumni meetings. Sister Linda was the most loving, caring big sister I could have had, along with some of her very loving friends... JUDY GLICK-MAN KIMURA!!!! WE LOVE YOU... Judy stayed a family friend through our lives, and is still one of the kindest, most loving Hamiltonians ever. Class of ’69? Linda’s class. Sister Jackie, our baby sister... LOVE YOU, JACKIE!!! I certainly never was nice to her growing up — through no fault

of her own, except not answering me when I asked, “Who is that?” when she answered the phone... Yes, we used LANDLINES back then! She paid dearly, believe me, by not answering me. But after maturing a bit (very little, sure...), I did my best and continued trying to be the BEST EVER for her in our adult years. And now, I end every phone call with a blurted-out “I LOVE YOU!!!!” Last, but not least, COUSIN MARTI... Besides Hamilton band and all that marching band fun, banging drums, Mr. Farrar, etc... Marti and I were each other’s besties forever — the Bobbsey Twins, people called us, as we were almost glued together — and always laughing our heads off there, especially when she fell down the stairs and Mr. Hedges had to scoop her up and carry her to the office. Or when he took one look at me in my lime-green party culotte dress, half-stoned with the worst angel curls ever,

leaning on my elbows on the door we were supposed to be watching as hall monitors... “Where do you think YOU’RE GOING?!” he asked, grabbing my arm, marching me to the office, while Marti was behind, choking with laughter and tears. Ahhhh, Hamilton... I loved, loved, loved my time there. Finally, between all the Gilbert love and fun... THE BOYS!!! Ahhh yes! THE BOYS...(Well, except for the time our Aunt Faye drove past and thought she saw Marti and me kissing them on the front lawn before school started... Uhhhhh... No, Aunt Faye... you must have dreamt that... NO WAY was

I NEVER NEEDED
MORE GIRLFRIENDS
— I HAD ALL THE
GIRLS I COULD
HANDLE. WE STUCK
TOGETHER LIKE
GLUE ALL THROUGH
THOSE YEARS....

that us! Nor was it me dropping the airline-sized bottles of Bailey’s Irish Cream and Harvey’s Bristol Cream out of the third-floor win-

dow when a backpack check was announced...) Darn... Marti and I were so looking forward to those on our lunch break... But it will always remain a part of our Hamilton fun memories. So, (I know not to start sentences with “so” anymore — I swear it was our father who started the “so” trend!! “So, so, so...” he always said) but, this is the end of what I’d like to share as my love story. Now I’ll sit back and see if it flies or not...

Hamilton was more than school — it was laughter, love, and a lifetime of stories, bound together by family and friends.

MY LOVE STORY

By Linda Weeks Morris '77

I MET MY HUSBAND IN THE BUNGALOWS IN MR. OSBALDESTON’S BAND CLASS IN SEPTEMBER 1975. OH, GERRY MORRIS, HE WAS SO CUTE! WE WERE BOTH PLAYING THE TRUMPET AND SAT NEXT TO EACH OTHER. AFTER A FEW DAYS, MR. O. ASKED ME TO GO BACK TO CHOIR, BECAUSE HE NEEDED MY VOICE (AS AN ALTO, I COULD SING HIGH TENOR NOTES).

Linda (Weeks) Morris — Class of 1977
Gerry Morris — Class of 1976

My only hesitation was leaving the cutest guy I had ever met. I decided to go back to choir, thinking, “I’ll see him around”. Well, I didn’t for the entire first semester. Then we started seeing each other every day, eyeing each other from afar, while he walked past me and my group of friends during nutrition.

One day, many kids were out of school, and I was alone, so I spent time with Gerry! It was in February 1976, and I was in heaven! I went home singing the Carpenters' hit "On Top of the World." We started dating and fell in love, quickly and thoroughly. Gerry left for Army boot camp (having enlisted before we started dating) in June (before graduation), and we were formally engaged in November 1976 (my senior year). In July 1978, we had still not gotten married, as he never returned home to marry me.

In January 1979, I attempted to reconcile with him when he returned home before his next duty station, but he informed me that he had gotten a girl pregnant at his previous station. We discussed it, and I told him that I'd accepted this and that, if he decided that he wanted us to reunite, I'd support him and help support his child; but that I'd need to know his decision within two months. Well, I never heard from him after he reported to his next duty station at Fort Ord, in Northern CA.

So, we each went our separate ways. I joined the Marine Corps in October 1979, because I was bored and incredibly unhappy — not realizing at the time that our breakup had hit me so hard. I met my first husband in May 1981, and we married on February 5, 1983; we divorced in 1994. Gerry married the gal who was "preg-

nant" (except, she wasn't). They divorced, and he married again in 1984 after visiting my mom to see about me, learning that I had married in 1983.

In February 2001, I received a call from my mom, telling me that Gerry had had a stroke and was living with his sister. She had gotten a call from his sister a couple of months earlier, but she told her not to tell me, because she wasn't sure how Gerry felt about me. It's amazing that Gerry's mom still had my mom's phone number in her phone book from high school, from more than 20 years ago. (It was like she knew that she needed to hold on to that number!) Gerry's mom wanted to know if I was married, and I told her that I had been divorced from

my first husband for seven years by then. When she told me that he had a stroke, my heart skipped a beat and sank. She gave me his number, but it was incorrect, and I tried for two days to find the right one, but couldn't; so I called my mom back. She read me the number again, and I realized that, when she wrote it down, she took his "um" as a "1." He always said "um" when he was transitioning from one thing to the next (in this case, he said the area code, "um," and then the number). I remembered that about his way of talking.

Once I got hold of him and spoke with him, I began calling him every single day. Oh, it was so good to hear his voice again. We still loved talking to each other for hours (just like in high school). The following Saturday, February 10, 2001, I visited his sister's house in Laguna Niguel to see him, and we both realized we were still deeply in love with each other.

He moved in with me and my son in November 2001 (still recovering from the effects of the stroke he suffered in December 1999), and we married on July 2, 2010. He has had five strokes total, along with some other medical issues. He is a lot slower than he was when he moved in with us in November 2001, but he is still able to walk and talk, so I'm okay.

That is our love story. 🐶

Announcements

CLASS REUNIONS

The Bugle has received the following information about upcoming reunions.

HAMILTON HIGH CLASS OF 1976

—KAWANZAQUPAYA!

CAN YOU BELIEVE IT'S BEEN NEARLY **50 YEARS** since we walked across that stage in our cap and gowns? It's time to celebrate the decades of friendship, laughter, and unforgettable memories with a reunion like no other!

We're kicking off the planning for our **50TH REUNION**, and we need your help to reconnect with as many of our **535 classmates** as possible. Let's bring the whole **KAWANZAQUPAYA** crew back together! Call, text, email, or message every classmate you remember.

Please email your contact info to
Jessica Shankman Sackman at
Jessercise@aol.com

**JOIN AND SHARE
OUR FACEBOOK
GROUP:**

Please use this QR Code

Let's make this a night to remember — full of green and white spirit, laughter, and love.

We *cannot wait* to see your smiling faces and celebrate the legacy we've built together.

ATTENTION, REUNION PLANNERS

If you have a reunion planned or a committee forming, please contact reunion coordinator

The Annual Hamilton High Alumni — ALL CLASS PICNIC —

THE HAA MEMBERSHIP COMMITTEE participated in the HAA All Class Reunion Picnic with the primary objective of expanding our organization's reach, strengthening community bonds, and fostering long-term engagement among existing and prospective members. Through targeted outreach and inclusive activities, the event sought to inspire greater participation and showcase the philanthropic benefits of HAA membership to our youth.

Thank you to Fred Hopson '83 and all of the amazing 80s graduates who put this event on.

FORSETIANS W'63 — Reunion Lunch —

THIS MAY, THE FORSETIAN class of Hamilton High School, who graduated in the winter of 1963, gathered to celebrate a remarkable milestone: their collective 80th birthday. Back in the day, Los Angeles City schools held graduations twice a year, and the Forsetians—known for their tight-knit camaraderie and enduring school spirit—proved that some bonds never fade. Of the original 366 graduates, 56 spirited classmates

came together for a lively “Birthday in the Park” celebration.

Among the distinguished attendees were Jeffery Wilson, MD, the 1963 Hamilton High School student body president who made the journey from Sacramento; and Harvard professor Russell Windman, who arrived from Boston, Massachusetts.

Camaraderie, nostalgia, and laughter flowed freely. The celebration was more than a birthday party: it was a tribute to the enduring power of over 60-shared years of lifelong friendships.

The event was expertly orchestrated by the ever-resourceful Naomi Blackman-Glickfeld, the current class president. As a retired Los Angeles City school teacher, Ms. Glickfeld maintained order and decorum at a gathering of the rowdy senior citizens in attendance.

SAILING BACK TO OUR YANKEE DAYS: Hamilton High's Classes of 1955 CELEBRATES 70 YEARS — of Friendship —

MARINA DEL REY, CA — On September 13, 2025, the Del Rey Yacht Club shimmered under the late summer sun as 48 proud Hamilton High alumni and five accompanying family members gathered to celebrate the 70th anniversary of the Class of 1955. The reunion brought together the spirited Summer Kanoans and Winter Parisians for an afternoon of laughter, storytelling, and heartfelt reconnection.

From the moment guests arrived at noon, the yacht club's elegant setting provided the perfect backdrop for rekindling old friendships. Registration was filled with warm greetings and familiar smiles, quickly followed by a lively buffet lunch that set the tone for the day. The venue — coordinated by yacht club member Richard Somers (Thank you Richard) — was praised for its welcoming atmosphere, attentive staff, and picturesque marina views.

The afternoon unfolded with a rich blend of nostalgia and celebration. Attendees browsed yearbooks, alumni magazines, and photo albums, revisiting cherished memories and class events. Some embraced the theme by dressing in Parisian red berets and Hawaiian shirts, representing their seasonal identities with pride. Group photos captured the joy, while a curated playlist of 1950s hits filled the room, evoking the vibrant spirit of their youth.

A special tribute was paid to Ron Wallace, a 1955 Kanoan and retired Lockheed thermal engineer now residing in Portland, Oregon. As the sole out-of-state attendee, Ron flew in with his wife and daughter to spearhead the reunion. His dedication and enthusiasm were instrumental in bringing classmates together for this milestone event.

The reunion was more than a gathering — it was a celebration of enduring bonds and shared history. Stories spanning seven decades were exchanged with laughter and tears, echoing the Yankee spirit that has defined this class since graduation.

As the sun dipped below the horizon, the day concluded with a spirited chant that captured the energy and optimism of the group: *"See you at the 75th Hamilton Reunion!"*

1975 REUNION

ENTERING OUR 50TH HIGH SCHOOL REUNION was like stepping into a time warp, only this time warp had a buffet and played Motown, disco, funk and rock. Though not as nimble as before, it was still possible to bust out an epic round of the electric slide, followed by a lively debate over which hurt more: disco fever in the seventies or actual fevers now!

Every conversation started with “You haven’t changed a bit!” and ended with a squint at the nametag for confirmation. It’s a good thing they were printed in font sizes large enough to be read from outer space!

The biggest change wasn’t the grey hair or the wrinkles, but the collective sigh of relief that everyone had survived puberty and a half-century of life’s challenges.

But between the laughter, the exaggerated family stories, and the hunt for the lost reading glasses, it was clear that the class of ’75 still knew how to make memories — albeit with more ibuprofen on hand, proving that some things, like the joy of seeing old friends and forgetting responsibilities for a night, never truly change.

The 50th high school reunion was proof that while memories may fade, laughter is timeless, and the best friendships really can withstand the test of time... and gravity.

See names of the reunion committee under the attached photo.

Ann Serber Istrin, Mitch Earle, Barbara Jacobs Stebbins, Larry Zimberg, Tawana Edwards Jones, Debbe Waterman Katz, & Cynthia Kerns Ray

HAMILTON HIGH SCHOOL CLASS OF 1995 — 30-Year Reunion Recap —

THE ROMANTICS — Hamilton High School's Class of 1995 — celebrated their 30-year reunion on August 16th at the Garage in the Palms district. The evening was filled with smiles, hugs, and heartfelt moments as one of Hamilton's most memorable graduating classes came together to share stories from the past, catch up on life today, and make plans for future gatherings.

Classmates flew in from all over the country to be part of the celebration. Beloved teachers and counselors, Mr. Ed Jackson and Ms. Sandy Mermelstein, joined the festivities — their presence was a highlight of the night.

The Garage, located at 3387 Motor Ave, Los Angeles, CA 90034, was thrilled to host the class of '95. The venue was decorated with yearbook photos covering the walls, and each table featured snapshots from 1995. In a fun twist, one of the bartenders turned out to be a Hamilton alum from the mid-2000s!

DJ Gina kept the energy high with all the biggest hits from the '90s, and classmates even took the mic for some unforgettable karaoke performances. Rich Schmidt Photography was on hand to capture the magic of the evening.

As the night came to a close and the final goodbyes were shared, everyone left with full hearts and big smiles. The class of 1995 unanimously agreed to make this an annual tradition — we want to put something together every year.

Submitted by Andrew Sacks '95

HAMILTON GIRLS BASKETBALL

A RECORD-BREAKING SEASON!

by Sherland Chensam

BEGAN MY COACHING JOURNEY AT HAMILTON HIGH SCHOOL IN 2015 AS THE GIRLS' BASKETBALL JUNIOR VARSITY (JV) COACH.

I was initially brought in to assist the varsity coach, having already spent over 25 years coaching at Mar Vista Park and Recreation. At the time, the program was struggling, and after the varsity coach stepped down, I was offered the opportunity to lead and turn things around. Over the past decade, I've been committed to rebuilding Hamilton's girls' basketball program from the ground up.

When I first took over, the team had only managed to win four out of 23 games, and the challenge seemed daunting. However, the early years proved to be successful. In 2018, we won our first championship in Division 2 (D2). The following year, in 2019, we had the incredible experience of competing in the Open Division bracket for the City playoffs. That same year, we made it to the Regional semifinals of the D2 State tournament, marking another significant milestone for the program. In 2020, we made our first appearance in the Open Division City Finals, and in 2021, we returned to the finals but fell short of winning. It was a remarkable period of growth for our team, but we knew there was still much more to accomplish.

The 2021-2022 season marked a turning point where we knew a rebuild was necessary. We had some talented players, and our motto for the season became "Stay the Course." The transition wasn't easy. The first few years had taken a toll on everyone – players, staff, and even parents – especially as they adjusted to the new normal after the pandemic. Despite the challenges, we remained resilient, staying at the top and never looking back, though we still struggled to achieve something truly extraordinary.

Heading into the 2024-2025 season with my assistant Coach Samara McCardell (who was one of my former players in 2016-2017), we knew it had to be different. This was the final year for

the current group of players, and we were determined to aim for a goal that had never been achieved in Hamilton's sports history. To prepare, we knew we had to make changes at every level, from the team itself to the parents and support staff. Once everyone was fully committed to the mission, we set out on our journey.

We decided to compete against the toughest teams in the Southern Section. We were invited to participate in prestigious

showcases and tournaments, which were key in preparing us for the City playoffs. With a roster of 11 players, including 10 seniors, we were confident that we had the talent and drive to claim the Open Division City Championship.

Our team was stacked with some of the best players in the city, including Kinidi Curl and Jade Fort, who formed one of the top guard combinations around. Our bench was equally impressive, and it didn't matter who came off the court – the team's performance remained consistent, because everyone fully bought into the team concept.

The mindset shift was crucial. We knew that competing against top Southern Section teams was essential to our City Championship aspirations. Over the course of the season, we faced and beat some of the highest-ranked teams in the region, including Ventura, Windward, Oak Park, Redondo Union, and Mira Costa.

Our hard work paid off as we dominated the Western League with a perfect 12-0 record, marking the first time in Hamilton's history that we went undefeated in league play. We finished the season with an impressive 26-3 record and, for the first time ever, were crowned Open Division City Champions. This victory wasn't just a win for the players but for the entire Hamilton community, and it marked the culmination of a decade of relentless effort, growth, and determination. 🏆

FOOTBALL FIELD OPENING

From Left, HAA Board Member Diane Glickman, HAA Vice President Melissa Hilton, HAA President Thomas McLurkin, LAUSD Board Member Sherlett Hendy Newbill and LAUSD Superintendent Alberto Carvalho cut the ribbon.

After many years of anticipation, Hamilton High School opened its new sports field on April 25, 2025! The rejuvenation of the field is part of a comprehensive, campus-wide modernization project that will be implemented over the next several years. Thanks to a city bond measure, LAUSD has been able to earmark \$420 million to bring Hami's campus to a state-of-the-art level.

Present at the ribbon-cutting ceremony was LAUSD Superintendent Alberto Carvalho, who stated, "This is step one of Hamilton's construction plans, and its success creates high hope for future renovations in LAUSD." LAUSD Board Member Sherlett Hendy Newbill honored the new space. "This project definitely involves the community of the school [and] the legacy," she said. "I think it's just a signature to the future." Also, in attendance were many record-holding alumni athletes from the 1971 and 1976 track teams. They were ecstatic to see the new and improved track with additional lanes, new grass, stadium lights, and upgraded bleachers. A new press box is also in place, along with a concession stand and ticket booth. 🏆

The Yankees are ready for the season!

EILEEN (WEINTRAUB) DARDICK, 5'65 has been teaching cooking, as a hobby, for more than 30 years. Her classes convey her passion for healthy cooking alongside a healthful lifestyle. Eileen has showcased her cooking in the Beverly Hills Adult School Program, in cooking stores, and grocery chains — Bristol Farms, Sur La Table, Kitchen Conservatory, and more. In addition, she co-authored two cookbooks: *Cooking the Light Fantastic* and *Lite-er and More Fantastic*.

During the holidays, I get a little overloaded with all of the holiday dishes, so let's take a detour. A simple and tasty Italian dinner puts me on the right track, and I realize that we don't have to have high-calorie holiday dishes. Stay with me and enjoy this tasty meal as a change when we just feel like we're eating too much.

ONE-POT PASTA PRIMAVERA
WITH SHRIMP OR CHICKEN
CLASSIC CAESAR SALAD
GARLIC BREAD
AMARETTI COOKIES

One-Pot Pasta Primavera With Shrimp or Chicken

Active Time: 22 mins

Total Time: 22 mins

Servings: 4 servings

This lightning-fast version of the classic pasta recipe calls for just the right amount of water that magically cooks down to create a silky sauce (no draining necessary!). Bright green vegetables, cherry tomatoes, and plump shrimp round out this springy meal that can be enjoyed all year round.

INGREDIENTS

12 ounces short pasta, such as penne or fusilli
4 garlic cloves, thinly sliced
2½ teaspoons (or more) kosher salt
¾ teaspoon (or more) freshly ground black pepper
1 (10-ounce) bag frozen broccoli florets
6 ounces green beans, preferably haricots verts, trimmed
8 ounces (use at least 1 lb. – I would use even more) large shrimp, peeled, deveined, tails left on
1 pint cherry tomatoes, sliced in half
1 cup frozen green peas
3 tablespoons unsalted butter
1 teaspoon finely grated lemon zest
¾ cup finely grated Parmesan, plus more for serving
¼ cup coarsely chopped basil
Red pepper flakes (for serving; optional)

INSTRUCTIONS

1. Step 1:

Place pasta in a large, wide-bottomed pot or large, wide, straight-sided pan. Add garlic, salt, black pepper, and 3½ cups hot water. Cover and bring to a boil. Once boiling, uncover and cook, setting a timer for cooking pasta according to package directions and stirring often. When 5 minutes remain on timer, stir in broccoli and green beans. Cover pot and return to a boil. (If pot starts to dry out at any point, add another 1/2 cup water.) When 2 minutes remain on timer, stir in shrimp, tomatoes, peas, and butter. Cover and continue to cook 2 minutes, then uncover and cook, stirring, until pasta is tender, shrimp are cooked through, and water is almost completely evaporated, about 1 minute more.

2. Step 2:

Remove from heat. Stir in lemon zest and ¾ cup Parmesan and toss to coat. Season with more salt and pepper, if needed.

3. Step 3:

Divide pasta among plates. Top with basil, additional Parmesan, and red pepper, if using.

Classic Caesar Salad

*Prep Time: 20 mins
Total Time: 20 mins
Servings: 4*

INGREDIENTS

Dressing:

6 anchovy fillets
4 cloves garlic, finely chopped
1 lemon, juiced
4 tablespoons red wine vinegar
2 large egg yolks
2 tablespoons Dijon mustard
2 dashes Worcestershire sauce
½ cup olive oil, salt and ground black pepper to taste

Salad:

1 head romaine lettuce, chopped
½ cup grated Parmesan cheese
4 tablespoons croutons

DIRECTIONS

1. Gather all ingredients.
2. To make the Caesar dressing: Mash anchovy fillets and garlic in a large salad bowl. Add lemon juice, red wine vinegar, Dijon mustard, egg yolk, and Worcestershire sauce; whisk until smooth and creamy. Gradually stream in olive oil while whisking constantly. Season to taste with salt and black pepper.

Garlic Bread

*Prep Time: 5 mins
Cook Time: 15 mins
Total Time: 20 mins
Servings: 8*

This is the BEST homemade garlic bread you'll ever make. It has fresh herbs, tons of flavorful roasted garlic, and is perfectly toasted. This easy garlic bread

recipe is delicious served with your favorite pasta dishes & comfort foods, and is a guaranteed crowd-pleaser!

INGREDIENTS

1 pound Italian loaf or French loaf
½ cup softened unsalted butter (can also use salted)*

4 cloves garlic, finely minced

1 tablespoon finely chopped fresh parsley

1 teaspoon sea salt

Optional:

¼ cup freshly grated parmesan cheese

OR

½ cup shredded mozzarella cheese

For garnishing: Extra parsley and chives

INSTRUCTIONS

- Preheat oven to 425 degrees F and line a large baking sheet with parchment paper or foil. Slice bread in half lengthwise and place on a large baking sheet, cut sides up.
- In a medium bowl, mix butter, garlic, parsley and salt together until well combined. Spread evenly over bread.
- Bake for 10-15 minutes or until slightly golden brown on the edges. If you want to add cheese, add it the last 2 minutes of baking. If you like a crispier garlic bread, bake for 3-5 minutes more, watching carefully until it is as golden as you like.

Amaretti Cookies

These cookies boast a crunchy exterior and a soft, chewy inside, while being easy to make. They're both gluten-free and dairy-free, free from yolks, milk, butter, or traditional flour, making them a cleaner, more inclusive choice.

*Prep Time: 5 minutes mins
Cook Time: 20 minutes mins
Total Time: 25 minutes mins
Servings: 16 cookies*

INGREDIENTS

2½ cups almond flour blanched

½ cup granulated sugar

½ cup egg-whites – I separated 4 large eggs

1 teaspoon pure almond extract or vanilla powdered sugar

INSTRUCTIONS

1. Preheat the oven to 350F. In a bowl, mix the almond flour and sugar and set aside. In a separate bowl, whisk the egg-whites until they are white and foamy, for about 1-2 minutes.
2. Now add in the almond extract (or Amaretto) and whisk for a few seconds. Add the egg-white mixture into your dry ingredients. Incorporate with a spatula or switch to using your hands if you have a hard time.
3. If the dough sticks to your hands, you can wet your hands a bit and roll.
4. Incorporate everything until you have a nice sticky dough. Once you have a sticky dough, you can roll each cookie into balls – take a measuring spoon or small ice-cream scoop and scoop the dough into your hands and roll them.
5. Dip each cookie ball into powdered sugar and place them on your baking sheet lined with parchment paper. Flatten each cookie gently with your fingers or the back of a spoon.
6. You can also roll them into balls, then into thick short ropes and make a half-moon shape. Then dip them into crushed almond slices, and then add powdered sugar on top. You can also make half-moons and leave them plain as well.
7. Bake at 350F for 20 minutes or until light golden bottoms. Let them cool and place them in a glass Tupperware as they will be delicious even 2-3 days before Christmas. Enjoy and share with your loved ones! 🍪

JEAN KLEOPFER BARKER

'42, passed away on June 26, 1923, in Carlsbad, CA. Jean was born in Atlanta, GA, on March 27, 1925. She leaves behind a son, Tim Barker. She moved with her father and sister Mary to California and settled in Culver City to start Culver City Grammar School in the fifth grade, which is when I, June Anderson Caldwell, met her. After eighth grade, we attended Hamilton High School in the ninth grade and graduated in June 1942.

Jean was a good student and involved in school leadership. After graduating, she worked at MGM Studios in the messenger department for 3–5 years until 1956. She married Bob Englander and had a daughter named Charlotte. After their divorce, she married Herb Barker, a policeman in Culver City. She then worked for Precision Forge in Santa Monica and Oxnard, in their financial department.

When retired, being an alumna of Hamilton, she volunteered to be treasurer. She was involved for many years until she moved to Carlsbad, CA, and commuting became a problem. Jean is listed in the Bugle as treasurer emerita and was a big part of the HAA.

We enjoyed Hami High, our teachers, and appreciated their instruction—plus gym classes and GAA. We also attended and supported alumni gatherings every year and reunions.

Submitted by her dear friend and classmate June Caldwell '42

JACK CLIFFORD — CLASS

'51, went to be with his Lord on February 25, 2025. He served in the US Air Force in Korea and, after that, worked as a vice president for a stock brokerage firm. At age 50, he began a new career and served with Wycliffe Bible Translators for 25 years with his wife, Carol. They mostly served in Africa, both Ivory Coast and Mali.

Submitted by Carol Clifford

ARNIE KAY —

Athenians W'54, passed away in San Pedro, CA on February 4th, 2025.

He was born in Long Beach, CA to Ben & Ethel Kay on August 6th, 1935, the youngest of four siblings.

The Kay family moved to a home on Fairfax Avenue in West Los Angeles, where Arnie attended Crescent Heights Boulevard Elementary School, Louis Pasteur Junior High School, and Alexander Hamilton High School, graduating with the Athenian class of Winter 1954. He earned his varsity letter playing tight end on the football team, while working at a local supermarket evenings and weekends.

In 1956, Arnie joined the U.S. Navy and saw much of the Pacific and East Asia as an able-bodied seaman. Returning to Southern California, he married Shirley Darner in 1957. With Shirley, he had two sons, Todd and Ross. Arnie graduated from California State University, Northridge, with a baccalaureate degree in business administration.

His professional career began at TRW in the heady days of the aerospace race, the family living in Torrance and Houston, TX, for a while. After a period as a consultant, Arnie became an entrepreneur and co-owner of CADWest in Lomita, CA. He never completely retired, going into the business until the last month of his life.

Foremost among Arnie's many interests was coaching Todd and Ross's baseball and soccer teams, something he continued well after his boys ended their playing, earning him the proud title of "Coach Kay."

Arnie took his sons to learn to ski in the San Bernardino Mountains and stayed on to become a ski patrol volunteer for several decades. His favorite pastimes were attending and watching Dodgers and Rams games.

In 1986, Arnie met Kathy Thomen. They married in 1991, settling in his condo in San Pedro, where Arnie served as President of the HOA board of directors.

Arnie is survived by Kathy, wife of 33 years; sons Todd (Kathleen) and Ross (Sharon); the mother of his sons, Shirley Kay; and two granddaughters Hailey and Taylor. He is also survived by his two Shelties, Willow and Luna.

A Celebration of Life of Arnie Kay was held on Saturday, April 19th, at the Portofino Hotel & Marina, Redondo Beach, CA, which was attended by family members and friends.

*Submitted by **Todd & Ross Kay**; and **Herb Eder**, Arnie's lifelong friend & classmate of **ATHENIANS W'54**.*

**EMILY ANN
KELLY —
Euphorians S'54.**

My sisters, Sharon Pascua and Donna Kelly-Meier, and I,

with heavy hearts, would like to say that our mom, Emily, was reunited with our dad on May 1, 2025.

Our mom wasn't just a mom to us, she was and will always be our best friend. She loved going on adventures, especially if it was to a casino.

She was a very strong, independent and feisty woman who will be missed very much. Our mom was a woman who loved her family with her heart and soul. She was very proud of her three girls, seven grandkids and eight great grandkids. She was also a very special Auntie Em to many. She is survived by her three sisters and predeceased by one sister.

She will be missed very much.

**JAMES THATCHER CREBER
— Elysians S'57, passed away**

August 23, 2025. Jim led a full life sailing boats, playing guitar, fighting on for USC, watching the stock market and loving his

family. He was born January 13, 1940, in Los Angeles but spent many years on the East Coast working on Wall Street on the floor of the New York Stock Exchange, and for various firms. Ultimately he came back to Southern California to be closer to family and the sunshine. At Hamilton, Jim starred on the varsity football team, and as a member of the house of representatives and class council.

Jim Creber with Carol Econn

Jim was the youngest of three sons to Lewis Henry Creber and Annie Valentine. Jim was predeceased by his brothers Robert and William. He is survived by his three children Camille Christine Beehler (Matthew), John Thatcher Creber (Michaela) and Katharine Creber Helgeson (Spencer). He adored his seven grandchildren, and, he was so proud of his two great-grandchildren. He will be missed most for his quick wit and deep love of his family and friends.

**DOUG ROBERTT — Elysians
S'57, passed away , January 29th,**

2024 with his loving family and dog Lucy at his side.

He was born June 26, 1939, in Cleveland, Ohio, to Dorothy Robertt. When

Doug was young, he moved to West L.A.. During Doug's childhood, he had four stepfathers and lived with his Aunt Sherrie for a period of time. His 4th stepfather, Jim Burford (deceased), played the most significant role in Doug's life. Jim also brought a stepbrother Lynn (deceased), for whom Doug helped provide care for when Jim was ill.

Doug was very close to his mother until she passed.

Doug always held the value of education. He went to Santa Monica College before transferring to Cal State Los Angeles, where he graduated with a BS in Engineering.

After graduating, Doug worked as a defense engineer at Raytheon for many years, where he met his two oldest friends — Eddie Chayet and Bob Siegel. Doug's career took him to work at Hughes Aircraft Company and, while there, he took night classes at USC to get his MBA. He was very entrepreneurial and had a strong work ethic. He passed both of these qualities to his children. Doug eventually started his own company, Technology Solutions in Woodland Hills. There he was able to do work that he was extraordinarily proud of, working with Mattel on their early versions of handheld video games for football, soccer and hockey. He later on started other ventures, including a glass art business that he eventually sold.

While at Raytheon, Doug married Linda Ossias in 1966 and, over the next few years, they welcomed two wonderful children, Glenn and Heather. While Doug was accomplished in business, he was most proud of his children and grandchildren. As a father, he enjoyed teaching his children. He taught Glenn and Heather everything he knew about tennis, helping Glenn to become the number one ranked player in high school. He also loved playing video games and pool with his kids, as well as making them laugh and embarrassing them with his quirky sarcastic humor. He talked about

eating all colors of the rainbow, and made lists for almost everything in his life. After Heather went to college, he and Linda got divorced. In 2000, Doug married his secondwife Lisa Robertt and they moved to the Palm Desert area. Together, they enjoyed friends, taking their dogs to the park or in the golf cart to dinner, and watching movies.

Doug will be fondly remembered for his passion for the Cleveland Browns, his unique sense of humor, and his love for sports, cars, and his dogs. He was a good and educated man who worked hard, led his life with integrity and provided well for his family. Doug is survived by his wife, Lisa Robertt; his two children, Glenn and Heather; his three grandchildren; and, of course, his two furbabies, Lucy and Zoey.

Submitted by Bob Fine S'57

MICHAEL METZGER — Elysian S'57, passed away Dec

10, 2024. Michael was destined to live an artful life. The grandson of the legendary entertainer Eddie Cantor,

Michael grew up in the presence of old Hollywood. He became a TV writer and producer, as well as a collage artist of international renown, and a writer, painter, and sculptor.

He was born Oct. 18, 1939, in Los Angeles, the son of the late Natalie (Cantor) Metzger Clary and Joe Metzger.

During peacetime, he served his country in the U.S. Army Reserves

before graduating in the early 1960's from UCLA, where he majored in English.

Upon graduation, he took a job at ABC, beginning a long career in television. In the mid-1960s, Michael worked with Chuck Barris Productions as a writer and producer for various shows, including "The Newlywed Game" and "The Dating Game." Later, for Dick Clark Productions, he produced "TV's Bloopers and Practical Jokes," among other hits.

During his television career, Michael won many accolades, including an Emmy Award for writing. In the 1980s, Michael and his wife, Ellen Metzger, formed a TV production company, producing pilots for network television, including the popular show "Night Games."

During a prolonged writers strike in the late 1980s, Michael, Ellen, and their daughter, Jesse Metzger, then eight, relocated to Ibiza, Spain, where they continued to create art and music. Upon their return to L.A., Michael went back into television.

As Michael flirted with the idea of retirement, he and Ellen visited their daughter, then a student at Williams College. They fell in love with the area and began a serious search for a new, post-retirement location, eventually settling in Chesterfield, in 2003.

For the next two decades, Michael worked tirelessly in his distinctive basement studio, creating hundreds of inimitable collages. Over the years, Michael was commissioned to create customized and often

humorous, satirical collages for the likes of Dick Van Dyke, Berry Gordy, and Mike Nichols, as well as for many local folks. As a gift for his treasured Chesterfield, he created a special Independence Day Parade collage for the town's 250th anniversary. One of his classic collages, "Darwin in his Bathroom," hangs in a town hall in the Galapagos Islands.

His writing — his screenplays, his novels, and his many inspired letters and emails to friends — were among his proudest achievements. His most recent novel, "The Tragicomical History of Madame Tourette: A Frolic," was published just last year.

Michael cherished the time he spent making music with Ellen and a host of talented local artists. In addition, their two horses and multiple beloved cats were a source of extraordinary joy in his life. Over the years, Michael was instrumental in helping others along in their careers, but probably the most important thing Michael shared with his friends was his humor, which was always unpredictable and often profound.

Michael leaves Ellen, his wife of 48 years, his daughter, Jesse, and his many beloved friends.

DOUGLAS J. TEULIE —

Spartans S'51, took his last breath at his home of 60 years in Newport Beach, California, on February 24th, 2025, at the age of 92. Dad was born in Los Angeles, where he met his best friend, Mark Linnes, in kindergarten. Mark and Dad both graduated from Hamilton High School and Mark had received a scholarship to USC.

Continues on page 45...

STANLEY HOWARD INKELIS, Hamilton Student Body President
 — **Tai-Shan S '62** passed away peacefully at his home February 4, 2025,
 surrounded by his family.

Stan was an only child, born in Los Angeles on December 16, 1944, at Cedars of Lebanon Hospital to Ruth and Danny Inkelis. He grew up in Boyle Heights and lived in an apartment in the eight-unit building that his grandparents built on Soto Street. He had fond memories of his Bubbie and Zaydie living close by. As a child, Stan and his parents spent many weekends in Las Vegas or at Murrieta Hot Springs, where he enjoyed swimming in the pool. The family moved to the Pico-Robertson area in West Los Angeles when Stan was 10 years old. He graduated from Hamilton High in 1962. Stan loved sports and was a high school football star. His mother saved the newspaper articles about how many yards he ran and the touchdowns he scored, once scoring four touchdowns in a single game. Stan was student body president and was well liked by everyone. He attended the University of California, Berkeley, where he majored in zoology, played freshman football, and threw javelin for two years, earning a varsity letter in the event. He became a lifelong and loyal Cal Bear and wore his Cal sweatshirts, hats or T-shirts whenever possible. He even had a pair of Cal slippers!

Stan had dreamed of becoming a doctor since he was nine-years old. He realized that dream when he attended medical school at the University of Cincinnati, graduating in 1971. Stan returned to California for his year-long Internship in pediatrics at Children's Hospital Los Angeles (CHLA). He then entered the Public Health Service (PHS) for two years and lived on an Apache reservation in San Carlos, Arizona, where he worked as a physician. When the two years ended, he took a year off and traveled around the world with his backpack: the trip of a lifetime.

Stan returned to CHLA in 1975, completed his residency in pediatrics and remained on as an attending physician. In 1980, he joined the faculty at Harbor UCLA, where he remained for 35 years, until his retirement in 2015. He loved being at Harbor and enjoyed his positions as director of the pediatric emergency department and clinical professor of pediatrics and emergency medicine. Stan's fund of knowledge was vast. Over the course of his career, he published many journal articles and book chapters on a variety of subjects. He enjoyed attending on the wards and looked forward to his clinical work seeing

patients, yet most of all he loved teaching the many medical students, interns and residents who trained at Harbor. Over the years, Stan amassed a huge collection of slides and photographs that he took, incorporating them into the hundreds of lectures he gave. Most were skin manifestations of diseases, and he became fondly known as “Rash Man.” He was even contacted by the LA Zoo for his expertise when an adolescent chimpanzee developed a rash, going behind the scenes to examine the primate and develop a treatment plan with the veterinarians.

In 1987, Stan met Mary Beth at a New Year’s Eve party hosted by a mutual friend and were happily married in June 1989. They enjoyed many activities together, such as skiing, hiking, going to plays downtown, attending UCLA football and basketball games, having dinners with friends and exploring new places. They had two daughters, Sarah and Elizabeth, and Stan loved them with all his heart. He was proud of their academic achievements and especially looked forward to their sporting endeavors, attending all their events and games. The family enjoyed traveling and went on many trips together in the United States as well as abroad, visiting countries on six continents. Stan often carried a suitcase filled with various medical supplies so that he was prepared for almost any emergency, anywhere. Luckily, those supplies were rarely used.

HE GRADUATED FROM
HAMILTON HIGH IN
1962. STAN LOVED
SPORTS AND WAS A HIGH
SCHOOL FOOTBALL STAR.
HIS MOTHER SAVED THE
NEWSPAPER ARTICLES ABOUT
HOW MANY YARDS HE RAN
AND THE TOUCHDOWNS HE
SCORED, ONCE SCORING
FOUR TOUCHDOWNS IN A
SINGLE GAME.

Stan retired from Harbor UCLA in 2015 but continued to volunteer/work part time, while he and Mary Beth traveled to places on their bucket list. He was later diagnosed with Lewy body dementia, after which he continued to enjoy his love of sports, watching many games and events on TV. During the last few years, Stan especially cherished the many visits from his childhood friends, colleagues from Harbor, and friends from the neighborhood community.

Stan was a genuinely kind and compassionate person who cared deeply about others’ well-being. He always strived to do the right thing, being ever thoughtful, ethical, deliberate and careful in his decisions. His friends and colleagues have consistently mentioned that Stan was “so nice to everyone,” “a really special guy,” “a truly good, decent, brilliant, caring man,” and “an amazing physician.” Many remembered him as “a wonderful mentor and friend,” “an amazing teacher and such a kind person.” The family of one patient (now 35 years old) said, “he was phenomenal and the most caring

doctor; he fought for us; he cared for us, and he cared about all the children,” adding, “no one can fill his shoes.”

Stan was a wonderful friend, an outstanding physician, an exceptional teacher, an amazing father and a devoted husband. He will be greatly missed by all and loved forever.

LAWRENCE J. FRIEDMAN — Tai Shan S’62, passed away July 17, 2025 — historian, author, teacher, mentor, father, grandfather and friend. His passing marks the end of a remarkable era in scholarship and family life alike, but his legacy of intellectual rigor, compassion for others, and a commitment to social and economic justice will live on in the generations he taught, mentored, and loved.

BORN IN CLEVELAND, Ohio, in 1940, Larry was the eldest child of Joe and Lena Friedman, tireless political activists who instilled in their children a deep commitment to justice and civil rights. Their values became the bedrock of Larry’s personal convictions and professional pursuits. In 1944, his sister, Phyllis, was born, and together they were raised in a household that valued learning, activism, and bold thinking.

Larry’s academic journey led him to become an internationally recognized historian, whose scholarship tackled complex topics with fearless intellect and elegant prose. Throughout his career, he remained committed to using history as a tool for truth and transformation. He authored numerous influential works, including *The Lives of Erich Fromm: Love’s Prophet*, which was hailed as a complete and unflinching portrait of Fromm’s life, political beliefs, and enduring relevance. Another of his most treasured works, *Identity’s Architect: A Biography of Erik H. Erikson*, was dedicated to his wife, Sharon; their daughter, Beth; the

Agran family; his sister, Phyllis, and their mother, Lena. With an introduction by Harvard Professor Robert Coles — who personally knew Erikson and his family — Larry was told, “...you’ve given the world, at last, the full story of a singular thinker who himself connected with historical (cultural) moments...”

A gifted educator, Larry mentored countless students during his long and distinguished academic career at Arizona State University, Bowling Green State University, Indiana University, and Harvard University. His classroom was a space of lively inquiry, challenge, and growth, and his students have since gone on to become leaders, scholars, and teachers in their own right—many of whom have reached out since his passing to share how deeply he shaped their intellectual lives.

Larry’s generosity of spirit extended beyond the classroom. During his years in Bloomington, Indiana, he became a Big Brother with the Big Brothers/Big Sisters program and was paired with a young boy named Adam Sarnecki. The two developed a close bond, and one of their favorite

traditions was attending Indianapolis Indians games at Victory Field. Larry delighted in sharing his love of baseball, and their outings became cherished moments filled with laughter, learning, and friendship — yet another reflection of Larry’s unwavering belief in mentorship, connection, and community.

Even in the final years of his life, Larry never stopped writing. His last book, still in progress at the time of his death, was titled *One World*, an ambitious and prophetic work that examined the perils of rising hyper-nationalism and the moral imperative of global unity. In recognition of his lifelong contributions, former student Mark West took the lead in compiling a *Festschrift* — a tribute of essays honoring Larry’s decades of scholarship, mentorship, and moral clarity.

In addition to his brilliant mind, Larry will be remembered for his deep devotion to his family. He was a loving husband to his late wife, Sharon; a proud father to his daughter, Beth; a caring father-in-law to Rhandel; and an adoring grandfather to Zachary and Noah.

His sister, Phyllis; brother-in-law, Larry Agran; nephew Kenny and his wife Kerrie; and their children Morgan and Ben were also central to his life and cherished dearly. He loved talking baseball with his grandsons, sharing memories with his family, and encouraging all of them to follow their passions, while staying grounded in justice and integrity.

A man ahead of his time in both thought and action, Larry often joked about wanting to attend his own memorial so he could hear what everyone would say. That joke became a remarkable reality on February 11, 2024. Friends, family, and colleagues gathered on Zoom from across the country — and the world — for a tribute while he was still with us. That event became a living celebration of Larry's life: a moment where the teacher became the student, listening with humility and joy as those he loved and influenced paid tribute to his profound impact.

Larry's passing leaves a deep void, but his legacy lives on in his family, books, students, and all who were lucky enough to know him. His life reminds us to ask difficult questions, seek justice with humility, and, above all, work together for the common good.

Each of us who knew and loved Larry carries forward his dream of *One World* — a world rooted in knowledge, kindness, and courageous engagement.

He will be deeply missed.

...Continued from page 41

Mark asked Dad, who had not thought about going onto college, to come with him to take the entrance exam. They both passed. They were both gymnasts in high school and college. It was at USC that Dad met his future wife, Nancy. Dad also joined the ROTC and, upon graduation from USC, was commissioned an Air Force second lieutenant.

My dad and mom got married just before Dad was to depart for flight school in Texas. After four years of serving his active duty requirement, we moved from Edward's Air Force Base to Costa Mesa, CA, and Dad was released to the Air Force Reserve. He later joined the Air National Guard. Dad always had two jobs: the Air Force/Guard and as an aerospace executive. Dad retired from the military as both a Lt. colonel and full colonel (one Air Force, one Air National Guard) after 32 years of service.

Dad always loved the ocean! He was an early California surfer (picture is August 1954) and was an early member of the San Onofre Surfing Club. I remember we used to have to go through Camp Pendleton to get to the beach at San Onofre. The guard would look at the officer's sticker on

the bumper and be a little confused, as it was an Air Force sticker; meanwhile, my dad was pointing at the San Onofre Surfing Club sticker. The guard was relieved when he saw the San Onofre Surfing Club sticker, which allowed us entry. But as the guard started to wave us through, there was a panicked look on his face. Then the wave of his hand turned into a salute as there was an officer present.

I loved the days in our surfing truck/early day "RV" (pictured is Mom and I at San Onofre) and, luckily, loved to surf from infancy (I think I did not have a choice as Dad wanted me to be the youngest surfer born). Later, Dad resumed sailing, which he learned to do as a teen in order to meet girls in Arrowhead. He would capsized his sailboat and fake drowning so that girls would come to his rescue.

Dad, with me in tow, started sailing lessons, classes, etc., to learn all there was about sailing and navigation. He joined the Balboa Power Squadron and soon was on his way to buying his own boat, joining Balboa Yacht Club, and trading up for bigger and more competitive sail boats. He raced his boat with other people's boats along the California coast, down to Mexico, and to Hawaii. Luckily for me, my brother liked to sail and I could move on to do my own sailing and off to college. As my parents got older, they traded the sail boat for a power boat (which my mother liked much better) and cruised the Pacific Northwest, along

Continues on page 46...

...Continued from page 45

with many trips up and down the California coast and to Catalina. Happy sailing, Dad! And don't forget your annual surf ride at San Onofre to renew your membership.

Diane Teulie Kent

LISA SCHNEIDER —

Kaheelawanie '72, has passed

away. It is with the deepest sadness that I share that my fabulous mother, Lisa Kollitz, died the evening of Friday,

September 5th, after over a year of battling pancreatic cancer. She showed such incredible strength, undergoing a major surgery, and receiving two types of chemotherapy. This granted her one more year with us, which allowed her to celebrate each holiday one last time, have two more birthdays, and even squeeze in a few cruises. The end was very hard and, while we miss her so much, we are grateful that she is no longer suffering.

For now, I will leave you with this photo which I think perfectly captures her wonderful snark. I love you, Mommy!

DR. JAY RUDUIN — Kahelawanie '72, passed away.

NANCY JEAN BARKER —

passed away June 26, 2023. Nancy Jean Barker, known as N. Jean Barker, born on March 27, 1925, in California to Joseph L. Kleopfer and Charlotte White Kleopfer, entered into rest on June 26, 2023, in Carlsbad, CA. Nancy was a loving daughter, cousin, friend, wife and mother. She married her love, Herbert L. Barker, and together raised a family of two children.

She worked as an accountant for a manufacturing company and will be greatly missed by her family, and friends. May she rest in peace.

The HAA Board, past and present, would like to thank Nancy for her service to the Hamilton Alumni Association. Nancy was the first treasurer of HAA and served in that position from HAA's beginning in 1993 to her retirement from HAA in January 2013. I served on the board with Jean from 2009 to 2013 when she passed the baton to me as treasurer.

Bob Raskin

RICHARD STONES passed away May 8 2025. He had a great 91 years and always spoke cheerfully of his time and friends at Hamilton High School.

— *Diane Stones (wife)*

JANICE JACOBSON — S'58.

LINDA LEVINSON passed away April 19, 2024.

PAUL THAYER, died in Sept 2023.

CHRIS (CHARLOTTE) BROWN MENDENHALL — S'51 passed away.

PHILIP SPELLMAN — W'1955 passed away.

RICHARD (DICKLER) GRALING — Mauna Loan S'60 passed away June 17, 2025.

RON SUGAR — Kealoan S'67 passed away.

ARGYLE and MADONNA DOYLE NELSON — Class of 1950.

ALBERT (Class of 1953), JUDY (Class of 1955), Westengard Boyajian.

IRV WARSHAW — Class of 1955.

RICHARD SOBOWITS — Class of 1974 passed away. 🐾

Didn't find your name in the membership directory? That means we haven't received a dues payment from you in the past two years. (Or we did and had a glitch in the database — it happens.) In any case, a check or a gentle correction will make everything all better. Be sure to include your class year on all correspondence. Visit our website at www.HamiHighAlumni.org to make a payment online OR send an e-mail to Membership@HamiHighAlumni.org OR mail in your check or correction to PO Box 64340, Los Angeles, CA 90064

TO HAA MEMBERS AND THEIR FAMILIES

By BOB RASKIN S'58

HAA Treasurer

HAA commenced 2025 following the receipt of a generous contribution from the Barbara Fay Pine Living Trust in October 2024, which augmented our portfolio by over 60% and prompted an examination of our funds at Morgan Stanley, including the management fees associated with this account. Following a cost comparison between Vanguard and Morgan Stanley, we decided to transfer two of the M-S accounts to Vanguard and combine the portfolios into a single account.

HAA has expanded its mission beyond awarding scholarships to graduating seniors by launching a "Mentorship" program. This program is designed to help HAA graduating seniors, who will be college freshmen, acclimate to their new college environment by supporting them academically, emotionally, and socially. The program's success will be measured through qualitative and quantitative data, which will be used to seek grants to extend the program into the future.

Another new program undertaken by HAA is the use of a CRM, or "Customer Relationship Management" strategy, which enables HAA to engage its membership in ongoing support through

targeted emails directed at various segments of our membership.

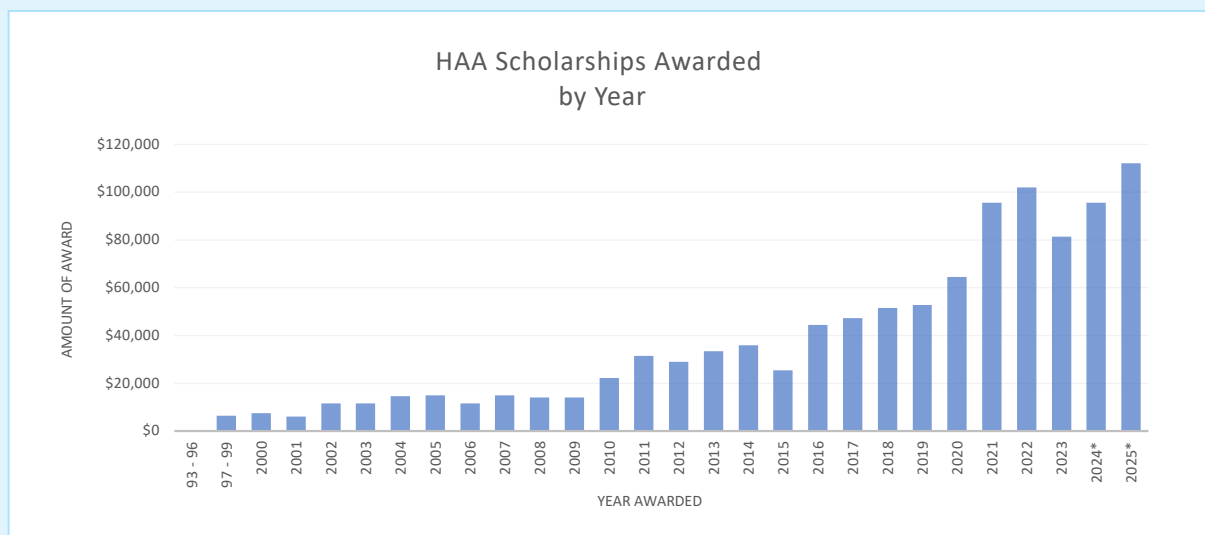

In June, in compliance with HAA's bylaws, a new slate of officers was elected with Tom McLurkin as president, Melissa Hilton as vice president, and Bruce Galanter as corporate secretary. Four board members were termed out, leaving the board at seven voting members. New members will be sought out to help make HAA more relevant and poised for the future.

A complete and thorough review of HAA's bylaws is scheduled for September.

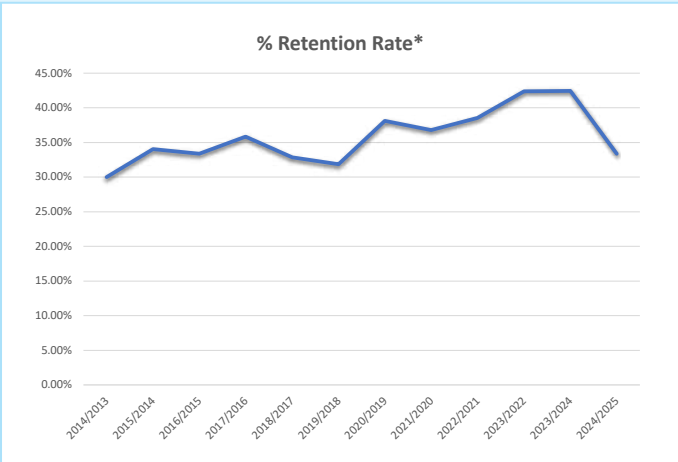

On May 30th, HAA awarded 106 scholarships to Hamilton seniors, with an average award of \$963, totaling \$102,050 for the years 2025, 2026, and 2027.

HAA has distributed more than one million dollars in scholarships since 1993, including awards granted in 2025. Our goal is to continue awarding scholarships, with a focus on increasing the number of multi-year awards.

Attached is a chart showing HAA Scholarships/Year Awarded since 1993:

On August 9th, an “All Class Reunion” was held at Rancho Park, where HAA set up a booth to recruit new members (13), sell Hamilton High School Logo Hoodies, and provide information about HAA.

HAA has secured a “Sellers Permit” that allows us to sell various HAA apparel and collect sales tax.

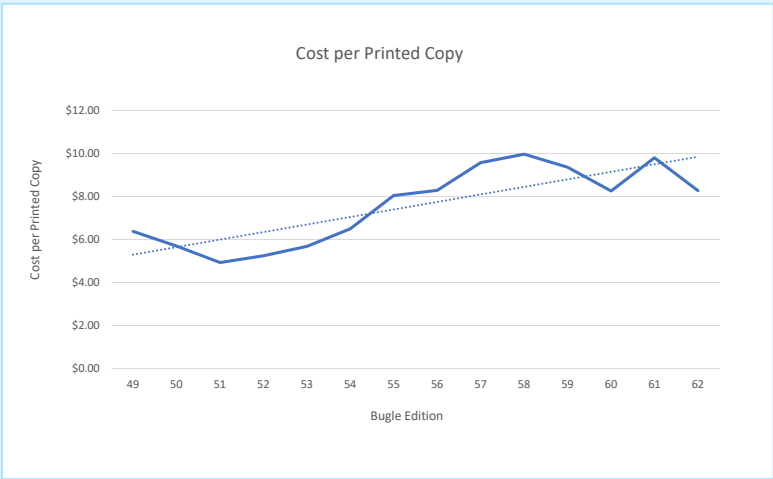

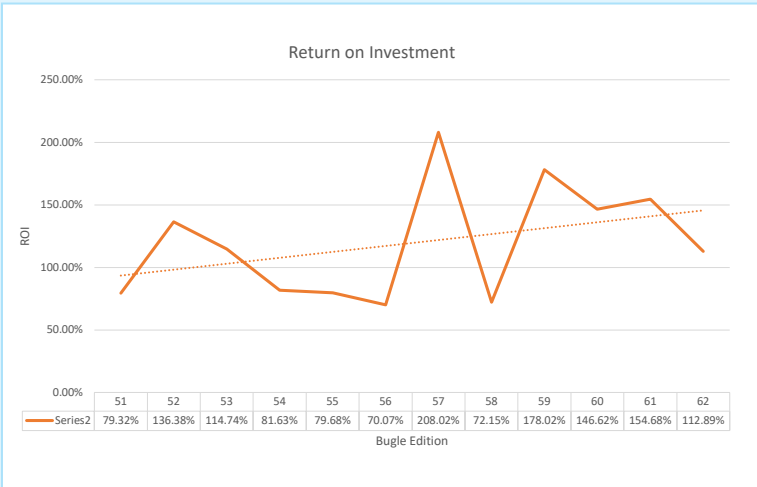

Los Angeles Mayor Karen Bass was in attendance and received an exceptionally warm welcome from everyone. She was so gracious and appreciative of her reception.

A Key Performance Indicator for a non-profit is the Donor Retention Rate, which measures the percentage of donors who contribute in any two consecutive years. For the period in 2025 ending in August, HAA’s Retention Rate is 34%. The average rate for a non-profit is 45%.

This graphical presentation shows the trend in the wrong direction.

Another Key Performance Indicator is the Return on Investment of a Fundraiser.

HAA’s only fundraiser to date has been the publication of the Bugle, and the ROI for the last Bugle #62 was 113%.

A significant reason for this decline is the cost of publishing and mailing the Bugle.

This graph illustrates the upward trend in the cost of both publishing and mailing the Bugle.
